## creation

needing the potential  
for creating ...

creation

being the totally empty nothingness  
of an entirely empty space

where then an entity emerging  
developing himself

to the perfect wisdom  
of arranging this nothingness  
to negative energy and positive energy  
to becoming matter

and then the plan  
that this creation

needing first plants  
then animals

to develop any emerging planet  
with this primitive life

but then to having homo sapiens  
to emerging out of this primitivity  
into intelligent biology

becoming this same perfect wisdom  
as creation needed to have

meaning creation was just the beginning  
of having worlds of wisdom

millions x millions of them

and then needing the wisdom  
to being the guardians of all this creation  
finding any danger to this success  
of creation

and trying to make any stupidity see  
that what they are doing

being no life it all

but a competing dying  
on this planet dirt

where we are seeing only decay and destruction  
and all this slavery for wasting creation  
for wasting any start of  
any fulfillment

of  
creation

but creation needing  
the competing perfect wisdom  
to fulfilling ...

creation

## **the formula of life**

showing

that any human  
achieving his fulfillment  
through the freedom  
to being a

human being

and that  
any hindering  
any enslavement  
be prevented

any fanning  
to this insanity  
this suicide

## the formula of death

insisting on  
that all just seem  
holy  
legal  
successful  
in a majority democracy  
being only there  
for the seizure of power  
to continue  
to destroying everything  
no human rights  
no argumentocracy  
no future  
only the driven force  
of insanity  
by which  
any environment  
every human will  
crush  
meanwhile people  
having only victims rights  
so they should  
as long as possible  
be dying  
meanwhile being victims  
of this power seizure

be the majority

I

robot

fully charged up with energy

produced by >  
united shames incorporated

programed for >  
united shames world wide

to be guarding the vanity  
of united shame

meaning ...

all those have  
nothing to want

just their liberty  
to being stupid  
in this age of  
being stupid

where all environment  
all humanity is being

wasted

for nothing it all  
but vanity

no wisdom  
no success  
no future possible

not only nothing

**our**  
**wisdom**

can only be the highest quality  
the end of the development  
of any human

being in every community  
taught in any kindergarten  
up to the highest university  
the fulfillment of all  
to guarantee

in contrast  
to this losing ability  
which being taught everywhere  
in any such a state  
making sure

that no one be likely  
becoming fulfilled

and why are all these against  
any fulfillment ?

only these vanity procurement orgies ?  
all this disaster glorifying probaganda ?

because they only maybe  
a vanity procurement artist  
because they are only losers

because all and  
any other losers would be  
becoming jealous

having to recognize  
that they are only gilded losers

meaning

the principle satan

who out of envy  
of this success  
of creation

has to destroy this creation  
so that he will brag about  
we are the powerful  
losers here

because everyone could see this  
so he would be capturing this reality  
at all letting come to his mind

but just the escape  
exactly of this reality  
being the goal

**so why**

**am I writing**

**this up ?**

do I want to push anything  
on some one ?

do I want to create a dogma ?  
do I want someone ?

be keeping from his fulfillment ?  
of being a successful loser ?

**no**

I want nothing at all

everything I write here  
everyone can understand !

as the cosmic reality  
being self evident

that these all are a failure  
that these all are not even able  
their global climate to keep

even denying this fact  
or their failure to even recognize  
their fault

so what being ?  
this cosmic reality ?

of course

to everyone to recognizes this  
learning the understanding  
and then being this

meaning

the only way of life  
where every ones fulfillment  
being guaranteed

because as soon

as any one denies this reality  
being the attempt of a prevention  
of this very reality

he having lost  
contact to this reality

determining  
that everyone can just the fulfillment  
of all guarantee

to find his own fulfillment

and any one out of touch  
with this reality

being this disability  
being a tyrant

meaning all those x xxx millions

must be prevented

otherwise all fulfillment  
of all those real trillion homo sapiens  
being a million x a million x a million  
in this universe

would be prevented

and I do not write that  
to achieve anything other

just the fulfillment  
of all and every one in this cosmos

and the knowledge of this reality  
meaning the cosmic infinite reality  
then bringing the fulfillment  
to every one

to any single recognizer of this reality

meaning a world without wars  
without illness ...

only fulfillment  
only endless satisfaction  
guaranteed security

and  
the endless competition of all  
for this fulfillment  
to becoming

fulfilled

meaning  
straight to the opposite  
of a life outside the cosmic reality

here on planet dirt

and not a single fata morgana  
with will be bringing  
only death to all

now

**not**

**a single failure**

anymore

so

how do we  
realize this condition ?

of course not  
asking the problems  
created by this problem  
democracy

where by  
in every new election  
all the politicians

having to make  
more insane promises  
to be able to come to power  
to waste all

humanity  
all environment

but we have to ask  
every citizen

in an  
argumentocracy

what kind of solution  
he will come up with

for all the problems created  
by democracy

and then every one other

will have the chance  
to improve this proposition

or bringing forth a better one

all in the light of real scientific  
evaluation

till no one can come up  
with a better solution

for the good  
of all of humanity

for the fulfillment  
of creation

[the argumentocracy.](#)

but

what about satan ?  
and all this problem creation  
of democracy ?

what would they then ?  
be bragging about ?

we are no longer losers ?

## **argumentation**

being the key to real success  
to the genesis of becoming human in general  
because the darwinic only applies  
for biological entities

there while a dodo  
yes not at all able

bringing a world  
to an end

only can  
these symbioses  
of predatory animals and dodos  
so these bragging technology monkeys  
that should never exist

since those already now  
there self murder assassination fully accomplished  
because it has been possible for 10 000 years  
no more homo sapiens at all !

and before that it was just a primitive  
always on the run

like today too

since there being no adaptation  
at all possible

only the idiot artist  
can do this

so the ones  
which only from an artificiality  
can rave about

and never improve a reality  
just their vanity

that being why  
only those

created idiots products  
because no one in their right mind  
at such a suicide  
will participate

for what ?

only woman  
biologically adapted  
to adaptation can do this

and all men  
being already dead

zombies  
just more dying every day !

all this having been said  
could also be the reason  
why darwin his thesis

not previously published

because he knew maybe instinctive  
that this does not affect humans at all  
may not apply

and this one homo sapiens  
therefore only sporadically  
appearing on this world

meanwhile he being the only one  
in a homo sapiens society  
so with our trillion

on a million times a million worlds  
in this universe

**a real homo sapiens**

recognize humans by

that he can cosmic reality  
discussing appreciatively  
with every one

but of all these idiot women  
only their stupidity as the last point  
leave their stupidity stand

because they never can  
become something else

just stay being an idiot  
because an idiot with the other  
compete

staying an idiot

so united  
to remain a failure  
a loser

so finish jesus off  
any real homo sapiens

or in symbiosis with predators  
rob out their own world  
and of success

they talking

that they can not even creation  
can get to let be

let alone  
to fulfilling creation

just lose everything  
being all of their quality

and that is her whole job  
from this mass of idiots

despair every person  
being so stupid

that they do not even notice  
that this being all their quality

only their complete stupidity  
so this mass of quantity

hence this madness democracy  
also determine

that only the majority of idiots  
the rest of this world their stupidity  
to pushing on possible

where not a single wisdom  
no single solution allowed  
only certified stupidity  
so this mass of stupid  
in their stupidity  
delight

so

their anti quality  
being just quantity

**thesis**

**right**

if someone  
so a state  
a judge

speak of an opinion

then no right state can be this  
not being a legal authority

because he negates the reality he can grasp  
up to a cosmic reality

which can be recognized  
that this universe has a meaning  
having a vision

but these all become  
a victim to public opinion  
so forced to madness

so the end of all life  
and dying all

so democracy  
just talking about opinions  
where the one of the most  
wrong opinions

because it being not based on reality  
as the basis for all decisions  
and only reality  
be on definition

real

so right  
these all democracies  
so camouflaged false states  
that create all these problems  
because in principle they do not even  
can speak right

so the citizen  
just becoming a victim of the wrong

so  
a victim of mass insanity  
where ... no human rights there either  
actionable he freezes in a faint  
then because all these

believers in madness  
can do more damage every day

more  
preventing the fulfillment of all

more over the fulfillment of the vision  
of creation ... impeding

### **dawning life**

this planetary population

being not even aware  
that they are not even aware

they do not even know  
potentially

how really enslaved  
since they are in reality

first of all  
killing themselves

and secondly

have already been spiritually killed  
by their parents

who have already died

who they either love for it  
or hate them

for having been killed  
by their ....

environment

so it goes to awaken all  
to create a future for themself  
for everyone in this world

because only when everyone is awake  
and being aware of what they are doing  
will all have a future  
can have

will all be able to live

will all  
be able to have a present  
without constantly on the run  
to being ahead of reality

since all this being  
about a fata morgana  
so a false hope

there being  
the glistening water in front  
that will quench our thirst

for example everyone just wants  
shopping in a market  
and not see at all

that this will end their world  
but we should do everything  
harvest somewhere ourself

without transport routes  
without slaves doing this 10 hours  
every day

to have an existence

or have a vacation  
on the canaries

but are not sailing there  
but flying there

and then talk sustainability

it is not about denouncing  
all of these enslaved

but to set free everyone

do not regret any thing  
but set them free

from being one victim  
having nothing to want

other  
then waste his environment  
in competition  
with all those others

waste any one not flipping  
our planetary climate  
in competition  
with all those others

since if we will not  
set all those free  
to being homo sapiens  
and never competing  
with all this

we will be wasteing our selfs  
from our own doing

**the homo sapiens foundation**

a religian life

having to be true

and  
any real belief  
there by becoming valid  
having to be rooted in reality

so

any religion having to be  
the valid decription  
of cosmic reality  
of creation

so

we can truly believe in  
since this religion  
being true

and no imagination  
no opinion

some one having  
come up with

so

we have to look at  
cosmic reality  
scientifically

then cosmic religion

being the scientific knowledge  
that creation having been created  
for the fulfillment of all homo sapiens  
that the freedom for living an  
intelligent life

in perfected wisdom  
the only freedom being  
that any human needs

to experience an eternal life  
in endless fulfillment

at the same time  
fulfilling our cosmic humanity

and  
the vision of this perfected creation  
fulfilling at the same time

since we are not the children of " god "  
but necessary partners  
without this creation

will not his  
fulfillment coming

now does any one see ?

that all of these religions  
and much more

all these " unbelievers "

the greatest stupidity  
any human can think of ! ?

because it can never be  
a world in a hundred years  
making un inhabitable

and  
for homo sapiens

having already been made uninhabitable

since every wisdom is guaranteed  
to being brutally destroyed  
since the beginning

of this un civilization  
the whole quality  
being

that they have no civilization at all  
no quality what so ever

allowing

just their  
destruction of every thing  
and every one

so just ... that this satan  
so this failure in perfection  
all these survivors fail  
in perfection

have no envy coming up  
about their total failure

because this creation  
yes >> the only light  
in all this darkness

## [the religian institute](#)

the following  
I will not brag about it  
certainly not as arrogance  
write down

but with  
the greatest regret

just for the sake of reality  
which we absolutely need  
to make the right decisions

because with wrong positions  
no correct final results at all  
may come about

that is the case for example  
with legal instances

who are talking about opinions  
as their judgments

there fore imperative  
and wrong in principle  
must be

only statements based  
on cosmic reality  
have validity

this stupid swamp

will pull everyone down  
in this stupid swamp

where there is one stupid dog

competeing with the other  
this world un inhabitable  
they make

first for all those  
who having a spark  
of understanding  
still owning

becoming  
then forever more stupid  
boundlessly desperate

until it is only a straw  
to keep them above the water

until they too go under  
they will

everything only  
about no human rights  
wanting to guarantee

everything only  
not to organize  
as homo sapiens

they being

the only valid  
citizens and office holders

everywhere in this universe

[our cosmic community](#)

should any one

be looking at this world  
with a 20 20 vision  
and the best of

intentions

then he will see  
that there can be no saving  
of any thing or any body  
any where

because the whole thing  
can never possibly be functioning

it being as simple as this !

since no one can be asking  
for any thing what so ever

other the what be the right  
decision not only for

all of this humanity  
not only for this galaxy  
not this whole universe

but for all of eternity  
as well

so we have to decide  
that democracy will never work  
has never worked

even some greeks  
the inventor of this catastrophe  
did believe in

but we need logical  
a scientific way of coming up with  
a whole new way of thinking first  
what will functioning for all ?

and this  
can only be an argumentocracy  
where every one has a voice  
every one has a solution

[www.argumentocracy.org](http://www.argumentocracy.org)

and then we need a total civilized  
and just society for all of humanity  
and this can only be had

when we have  
a cosmic religion  
being binding for all  
in this cosmos

having any one a better idea ?

here on  
does not consist in

because  
no one in their right mind  
will abolish themselves  
to get rid of

ergo

start world wars  
and then lose all

of creation  
or a native population  
completely or almost exterminate  
and of religion  
they talk

from their god !

whose creation  
they destroy every day

> should such a satanic eve  
not allowed to do anything like creation  
annihilate and the fulfillment of all  
humans

to the envy of all bugs and rats  
on their wretched death  
do not have to feel

then you have to guarantee  
that your children have the same madness  
to have

before it even to mom  
it can throw this on

> the same applies to everyone  
satanic adam

who must adore satanic eva  
and then watch over

not  
any description of reality

will touch her

> of course we need  
for such a satanic state  
a satanic delusion broadcasting

> of course  
these are allowed  
guaranteed by the law  
human rights not  
actionable

the end of all sapiens  
there in

**the homo sapiens ...**

being the basis of our civilization

for our success in eternity

with his never ending wisdom > his total responsibility  
where no one ... no idea ... no solution will be shunned >  
no resource being wasted > no environment being spoiled >  
no security measure left out

where there is no hierarchy >  
because every one is the most important being !  
at our never ending paradise on any world  
in this universe

we at the galactic foundation > are searching constantly  
finding any and all danger to our society  
coming from degeneration and pest

keeping every homo sapiens informed >  
what a difference they are making !

there while any and all danger to our universe  
will be eliminated through >

our galactic pest control program ...

the universe ... can not be an organized crime >  
with its technology > its predatory instinct  
on every world > every galaxy >

yes ... in the whole universe

so ... may not hold people from a responsible way of life  
since this is without responsibility  
since those organized criminals

understanding only their animal instinct ...

the law of the universe >

each one citizen can only use his world  
for a purpose of the universe > for creation !  
and not for the destruction of their worlds  
and certainly not for the destruction  
of all responsible life ...

every little child knowing this in our society !  
and everyone can understand it >>>

because they are having a comprehension ...

fellow humans ... should therefore their fellow human >  
to be an inspiration and not an inspiration for this >  
end to your world > but to be keeping it as long as possible  
> meanwhile > all people are so healthy  
and always living healthier!

always freed from any danger  
doing less and less for their material needs  
not this one day throwing away production  
not these hamster wheels >  
with those migratory locusts economies  
the end of your world and the end of all intelligent life  
already achieved

a technology may only serve the people  
not for his enslavement > not to being terrified to his end  
not as a drug > because he's not able to stand this reality  
can not bear at all > can not stand

not as a conceit > he would be a success >  
not as a distraction > from reality

but we need homo sapiens > no idiots selection

for a secure future > for a future at all

So we need the education to a homo sapiens  
not to a suicide assassin > these all are .....

because there is no fundamental difference  
between any Islamic state > and his religion  
or such a satanic state > who puts his delusion through

no difference between such a terrorist president  
or such a freak out > who seeing no other choice  
as just to be shooting around > just like all of them  
terror states always are killing all resistance !

just to not grasp > that this whole world being the problem >  
and no one has a solution!

nobody wanting a solution ...

**the individual ...**

can not be let to enjoying his idiotic egoism  
at the expense of the environment and its fellow human beings

nor can he be enslaved > to a mass of insane >  
to let their masses enjoy idiotic egoism  
to destroying their world and destroying the people  
to this horrible reality today

the only possibility for a sustainable world  
and a society worthy of its people  
to an endlessly functioning environment  
an endlessly functioning society

be ... that all first  
to recognize the need of a valid order!  
and implement this > that all >  
endless with one another in an open dialogue  
every day > always discussing the reality anew  
where everyone has a voice > not just the mass >  
meaning a majority of insane  
as now!

and consequently use this public truth  
as a basis for your all decisions made  
to realize a real righteous state  
to fulfill all valid laws  
to living a valid religion

homo sapiens?

only harm can come from them!  
to the climate > the resources >  
the seas > the land and the future !

of course to every homo sapiens > who knows  
that all this harm to his world will end it ...

we can never help any one  
to wanting a paradise  
or having wisdom

any one has do  
perceive all his trauma  
all his enslavement

we can only provide these facts  
for the development of all

not for ever more enslavement

and should any one or any group  
any planet be a danger to our universe

we will act in self defense

and eliminate this danger

the only way to decide

the argumentocracy

# the argumentocracy

where everyone has a voice  
not the tyranny of the crowd  
not the tyranny of a tyrant

the argumentocracy ...  
In principle not just the only one  
to be right decision making

but she also forms with her argumento culture  
the best citizen

from this follows

that only the argumentocracy  
the only human form of government can be  
like us ... the trillion homo sapiens in the universe  
found out for a billion years  
and work through that  
this is confirmed

that everyone can understand

there

when a decision making  
to go from anything else  
but how to find the best solution

if a party assumes it  
if every voter assumes it

whether his solution  
also politically feasible

then we have the catastrophes ...

then we have climate flipping ...  
resources squandered rights  
especially frustrated voters ...  
annoyed citizens

the higher their intelligence ...

there is more and more evidence of ...  
that they can not achieve anything  
because they have no voice  
in this democracy !

because even the inventors of democracy ...  
the ancient greeks ...

at that time already some knew

that their invention  
has this principal error  
that this will cause a catastrophe

because we are going to look at democracy  
so this is not just a fundamental catastrophe

but select this  
yes ... educate the catastrophe potential of citizens  
because in a democracy ...

turn everything around the earth  
to come to power with the majority  
and who can think ?

that these ... the right ...  
the best decision makers ?

that is just against any scientific practice !

so democracy is not scientifically based  
not at all scientifically proven

because every party in a democracy ... yes a party program  
that promotes the interests of ... a particular party electorate  
creates again to come to power from this

but

we can not tolerate any power !

because everything has to be understandable  
that is the human feature against the animals  
they always think only about roguery  
these always think of the majority  
they always think about what is possible  
thus ... the law of this law is the law  
for a democracy ...

the 3rd Reich was one too !  
the biggest catastrophe of all time ...

so we need a possibility ... not depending on the mass ...  
making the right decisions ...

and to introduce everyone  
until all no longer different  
only accept the best solution  
because they just ...

no better arguments to bring forward

do you have a better idea?

## **already the word solution ...**

will bring all these paranoid pests in panic  
because as soon as someone introduces a real solution  
he has no chance  
to be acceptable anywhere in this world

the amish have the idea ....  
that too much theory is the end of everything  
but some do not always go along with this

so this world ends anyway  
they do not see that !

because an uncle albert thinking my theory is everything  
and he does not prevent world wars ... either  
and even the atom bombs he delivers  
so to make everything worse

that is not in a scripture  
so not holding onto a Bible eg  
definitely will bring the end

that is without a generally binding order  
in any case > a world ends ...  
people end

So what is the solution?  
of course ... that everyone has to see ...  
that without a binding order >  
nothing will be preserved

you can not believe ... what you want  
you can never do anything ... what you could !

neither as an individual ... nor as a mass!

so we need an order ...  
that prevents this ...

who saves this world  
dictate this !

no climate tilting rights  
no resources to squander rights  
no contamination rights  
no butcher rights  
in the hospital

we can not compete with any parties  
let go on this world ... where one  
compete with the other

talk about ... "consumer prices down  
producer prices up "

that only produces idiots  
because they have a platform for their stupidity

we need an argumentocracy  
that makes every good idea a success  
and any stupidity to failure

so we do not need any parties  
certainly no competing!

and how do we do that ...  
we have to organize ourselves !

## the argumentocracy

just works according to the principle  
of the best solution

so a solution to a problem will be advertised  
then all citizens in a city will bring their solution forward !  
when no one can say anything better  
this best solution will be presented in its county

until there the best ... of the best solutions will be taken  
then to the state government  
then to the federal ....

then we have the best of all solutions  
which of course ... has to be scientifically proven  
be in the interest of all citizens

no special interests

because a democracy divides a nation  
because the argumentocracy unites all

do you have a better idea ?

## this kind of solution

will as well work in science  
in the industry ... in internet forums

the stupidity of democracy can never work in politics

or any where else

this greek catastrophe

that even millennia ago

many greek philosophers saw as a catastrophe

then

## tyranny ...

this competitive insane anarchic  
can only be the end !

because no homo sapiens are working  
for their very end ... as already happened

no human can do this  
to all these refugees

to lure them from the responsibility

through all this consumption  
to fuel all this consumption  
to all this through propaganda and advertising  
fooled folks write about  
so creating all this work

because I can not even find a note book  
I would want to buy ... that is why I always using just garbage  
get it back to work ... pc ... one out of 10  
free programs ... only

because I will never buy such mischief  
so a note book ... a tablet so thin and light  
that it is not suitable to work with  
not repairable

so we need to be against the paradigm  
everything has to last as long as possible  
and only one model for every application  
and then you need spare parts  
available for a million years

but this is enough  
free beings must decide  
to co-operate ... for the good of their future  
not because everyone tasting his delusion  
to the end of all

that already happened  
because no one competes for 8 hours  
to work every day ... let alone  
from this full employment  
this fully enslaved  
to rave about

so a party has to come  
the goals have ... to fully removable  
no amount of delusional thought

and why is not it ?  
of course because of the woman ... the mother  
only their delusion sensible

only choose this one ... your tyranny  
to realize the end of the world ...

and as a result ... every child already  
one year old... to being the zombie of this monster

and therefore only an argumentocracy  
a shutdown of the lanterns ...  
a broadcast end ...

a power off from 18 to 6 in the morning  
invite to a reflection

and ending all these entanglements  
by developing work

and then be this world  
and all the following already been saved

like with us ...  
the trillion homo sapiens today  
for a billion years

where our first planet  
since that time

not only still living  
but better

when it was a billion years ago

not a single meteorite  
has ever hit our planet  
not a single flood

above all ... everyone is satisfied  
there is no possibility  
for any crime  
for any war

what for ?

and of course in every million  
x million worlds in this universe

already a giordano bruno  
dreaming over 400 years ago

and what did this infallible tyrant do with him ?

## **the norm**

with all these paranoid problems  
insist ... ignore any solution by ..  
to defend ... to deny

any entertainment ... any reason gifted  
ignore as long as ignore ...  
until he gives up the ghost

because their entire existence exists in it  
your problems ... your problem  
to have glorified

her whole problem existence  
to maintain

**an introduction to the religion  
and history of the galactic nation**

**the homo sapiens**

**and the planet of the fata morgana**

this is a documentary

.... from a visitor > from a far away galaxy >  
coming to us 26 millennia ago > in his spirit only ....

having now incarnated in our own biology >

to be telling us the story

of his own civilization

since we are homo sapiens ...  
we have of course no democracy  
certainly no secret and free voting

but of course an argumentocracy  
meaning ... where is the best solution  
is used by all

because only the best solution  
can be shaping our future for all eternity

where our universe and all worlds

are preserved to eternity

and should someone  
bring forward a scientifically provable  
better solution > then this will be used

of course we have no theocracy

even though it is our entire existence

to conserve this universe and all its people  
so ... we live according to a religion

there is no humanity with power positions  
but an alienating hierarchy

and alienation creates automatically  
and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism  
since this only can be the end  
of every thing

we create everything that we need  
so .... that we have everything  
and of course we can keep it  
for millions of years ...

## prolog

on this planet ...

it is like a fata morgana !  
you do not know what you even could do ...  
because there is sparkling water in front of here

but actually you know >  
that there is no water there !  
but what else can a man do?

just to continue ...  
because here at this point >  
there is surely nothing to drink !

and there in front > there is no hope !  
only at the end your dead by boredom ...

because this world is becoming the second venus  
so only boiling water ... when ever ....

because there is not even  
a consciousness somewhere ....  
no dialogue or public truth

only all these thirsty  
trying with their last strength  
reaching the water not being ...  
there!

## the visitor

already from space coming ....

any intelligent visitor ... will see >

that this planetary population can be no homo sapiens !

just looking at the illumination of the dark side of the planet !  
and this mass of radio transmissions for broadcasting .... entertainment

when every one should be resting !

because every human needs contemplation ....  
otherwise he will be > becoming insane !

then ... when the visitor .... closing in .... and all this garbage ..... to be seen  
he can only turn away disgusted >

and when we are coming down on this ... "earth" .... then ...  
every one is running from one drug of entertainment >  
to the next > drug of food .....

or this guarding the peoples humanity >>>  
with wolves > with state licensing dog tags !

or just looking at those ideas > this population has  
about an extra terrestrial civilization >

no longer ... any ..... rest period .... at all  
just endless fun !

or the "search" of this earthlies >  
for extra terrestrials ... via radio waves .....

then we know for sure  
that this can only be simply a mass of insanity

and should more evidence of this be needed >  
then we need just to look at this animal love !

when every homo sapiens is knowing >  
that animals never want to live in human dignity ...

this is a very unusual superiority >  
of the homo sapiens in this universe ....

consequently they are > the only such > long enough there >  
not just to settle one galaxy ....

but the whole universe !

**documenting a day in the life**

of > first planet < in the year 154 after creation >

of the first human settlement in this universe .....

note .... a responsible life style ...  
can not only be the biggest fun in the universe ....  
but being the only life style ... working endlessly ....

because every one can be convinced of what he should be doing !  
forever .....

we are looking at > first planet > at our very right >  
our sun > below left > what is looking like a tiny moon  
being the space ship > watching out for the safety .....

parked in geo stationary orbit over the settlement >  
with only the sensor doors open !

we are seeing no lights an the planet be low !  
no sign of any settlement ... or manufacturing >  
the only thing to indicating any population as of now >  
are the out rigger sail boats beached > the solar electric rovers >  
the solar powered river boats ....

but there is an emergency plan ready  
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river fall is not operating  
the lights for orientation in all the housing and control centers  
is being supplied by tiny local thermo nuclear power plants  
from the former uses on the robot ships  
and planet rovers ....

there is no other kind of any human population any where from here ....  
naturally ... no broadcasting of any radio trans mission of this world  
can be received at any distance !

as all communication is done > by quanta communicators >  
low power short distance equipment or through under ground lines ....

we are now in the main command room >  
the display showing >>> automatic surveillance mode on >

no space sensors > no space ships >

now asteroid on coordinates **6 39 15.70 > 2 16 22.17 >**

received quanta message from planet two >  
but no frequency messages >>>

since automatic mode started !

the crew sleeping > like all residents be low on the planet ....

we are now going toward the first planet > seeing a robot ship >  
monitoring the settlement > seeing a predator going toward it ....  
notifying the nearest planet rover automatically at the planet surface  
there the animal repulsion system is activated >  
and the tiger is making a U turn and going off

we are now in a cave > at the rivers bank >  
seeing two children in the dawn of the new day !  
the increasing light being brought in their room  
by an automated mirror from the rising sun >

the led clock showing 5 45 .... the date 05 03 000 154 > at this moment >  
the boy is waking up and looking what time and saying aloud >  
will to be getting up soon !

when his sister is opening her eyes too .....

now we are in the kitchen of the cave >  
where the boy is telling his parents there >>>  
that he does not want to go to school today >  
but be playing with his friends at the river ....  
his mom asking him >

what they are having in school today ?  
and he startles ....

because he was to show off his experiment of mixing colors today !  
so ... he thinks > he will be going to school today after all ...  
to be showing off >

an electric motor  
where a disk of all colors in sectors ....  
will be becoming an off white once turning ...

the mother saying > we are having >  
commanders day 100 th anniversary coming up in 3 days  
then we will all be having off ...

and dancing and singing together all day long  
do you remember what he has done for us ?

yes ... says the girl >  
he was the founder of our religion >  
he and his crew of a space ship

put the tyrant and his bandits of the empire on a planet to die ...  
while having time to realize all their wrong doing ...

and settled this world for us >  
free of any wrong doing ....

I am > because we all are !  
and we can be > because I can be .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without any delusion !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

then he went off in his spirit later on >  
leaving his body behind here >

to be helping a native population  
living after our religion in some other galaxy !  
and this day we are celebrating >  
what he having done for us ....

all their other relatives are coming in now ...  
many being over a hundred years old !

they are fixing breakfast now >  
from the seeds they have been collecting days ahead  
and rolling them out >

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school >  
half of the adults are going collecting lunch ingredients  
the others going to their work ....

since this being the first settlement ...  
the galactic council being here

and the co ordination of all the things to being done >

the council members  
are considering the danger from the asteroid >  
sending a robot ship to it > to making star dust out of it >  
to fertilizing our planet !

the message from planet two will be considered now ...

*to our dear galactic counsel members*

*as you know ....*

*we have arrived at our new home month ago !  
taking inventory of all plants and animals  
pathogens and toxins ...*

*atmospheric components being confirmed ...  
animal population is in a very early state !*

*having selected a location for the new settlement !  
like our first> at first planet ... at a river bank  
in a desert within the tropics >*

*since the sun shining less than  
at first planet > we will be limiting the settlements  
to the near equator ...*

*there are limited places for caves ... so >  
we will later be building partially submerged housing there >  
since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...*

*we will be all moving into our new housing now >*

to be celebrating commanders day ...  
all together on our new future planet !

leaving the space ship two > at automatic command mode ...

our dearest regards to all of you >  
for having made this possible ....

commander ss 2

the council members compose a reply and congratulations >  
for the successful start of a new settlement ....  
on the second planet ...

there while in a another galaxy >  
the spirit of the commander !

still working on the evolution to a higher race >  
there !

the harbor being down river >  
the space craft factory being at the hydro electric plant  
up the river ... right here >

many service work shops for all the technology used  
note books having direct led screens ...  
every pixel having one triple led  
using less than 1 watt >

the rest having only 100 mhz >  
and the OS being optimized

as well as all the applications for this ....

there is only one model for each use >  
and that being build to last a 1000 years ....

then at 11 they all coming together again to eating lunch  
under the trees by the river ...

then at 1 pm they are going  
to take place at the workers who are now hunting

and collecting for diner and the next day until 5 pm

then eating together with their families ...  
after they are just resting and talking things over  
so no problems are unsolved ... till at about mid night >  
they are having a snack

to be sleeping again till the morning ....

### **there is no hierarchy ...**

because this would be an alienation  
and be a coming problem for all !

everything must be transparent >  
everything must be understood by all !  
only in an emergency > there is a command structure >  
thus > in a spaceship > at a sea crossing >  
so if there is no time for talks !

but even then all orders ... spoken  
about in retrospect and reviewed by all ...  
to find the better answer !

just as there is no democracy or theocracy ...  
since only ... if all can agree >  
the answer can be right !

and only if there is no time there will be >  
temporary solutions used ....  
till a better solution is found !

and should any individual or a group  
not be responsible for our universe >  
not willing to be responsive ...

then this necessity  
will be carried forward with all force !

while there is every freedom to act on your own >  
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !  
because as soon as anybody is excluded  
he will be feeling alienated ....

then arises >>> a criminal association ...

and each organized crime on a world >  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing >  
and what effect this is having on eternity ...

## > genesis <

> the emergence of the first homo sapiens in this universe

..... it happened in another galaxy ....  
more than a billion years ago >

## >>> the suspension <<<

the location > a space ship of the imperial forces on a reconnaissance flight  
for a potential new colony

> the commander and his crew >> being the members of a new religion  
schedule the launching of quantum communicators  
for the posting of fictitious place data intended  
for the imperial center through robot ships .....

this data adhering to the prescribed course !  
as well as some quantum communicators  
for fictional communications ....

as soon as those are on the destination  
they will fake the destruction of the command spaceship

the robot ships will then return  
to the mother ship on the new course >

the other quantum communicators >  
have already been secretly destroyed  
through the removal of the entangled quanta  
in these .... forever ....

therefore it will no longer be possible

to communicate with the imperial center

today the powers of the imperial center on this spaceship>  
will be dis empowered and deposed on the nearby planet  
only with the possibilities of primitive hunters and collectors

two robot ships will be left on this world >  
to enforce the conditions >

create no signs for any one to see from space  
no settlements .... plantings > markers  
no radio or light ... fire sign development

otherwise they will be every time > be de powered > a method  
the individual lying for hours in terrible pain ....

until they adhere to the conditions !

they should have time>  
for their gruesome slavery methods becoming conscious of !

at this meeting >  
the emperor notifying to his claims >  
as supreme commander and as the owner of the spaceship !

which is countered >  
that everything belonging to the creator of this universe  
and we are just the managers of all !

that this ship was built by millions of hours through slaves  
it being on time .... it will perform a righteous purpose !  
use it for a decent way of life in this universe ....

after this meeting >  
there remain only the emperor and 2 of his adjutants to be deposed of  
since there are some minors of the imperial center > joining

distortions made by the crew  
but this region having been carefully explored >  
providing ...

that the new ones are not found ..... so easily

they could no longer .... stand watching  
the slavery emanating from this empire  
have for years thought of a way  
to be sneaking a way

to live a simple and decent life in this universe!

and this priority for their future security ....  
will from the beginning be their first priority >

they will only create underground settlements  
only collect naturally growing fruits and  
catches of wild fish and ... hunting .....

until in a different galaxy  
they can be sure of not be coming prisoners of this empire again ....

they will only use animal paths for their movements >  
but they will not keep any animals >

since this would be incompatible with their religion  
because animals are no decent .... citizens >  
friends or neighbors !

they will of course not make any lights outside in the night  
and absolutely no power broadcasting of radio waves !

they will for their communications >> their energy >  
use only wiring >invisible > underground .....

because their religion allowing no light at night any ways >  
except for orientation at their home and necessary news >  
no distractions > no entertainment !

should later bigger settlements  
on different continents > islands of their new world ... develop  
then the quantum communicators for news etc  
will be equipped with new entangled quanta  
thus ensuring a secure transmission

they will make the spaceship invisible by perfect camouflage  
for the transition use it for their food research + health care

and then later> when new generations have been growing up >  
colonize many other worlds with .....

to better the prospects for their survival !

this >  
the story of the genesis of the modern homo sapiens  
in many galaxies of this universe >

their development of the technology  
for un manned colonization to other galaxies .....

giving ... no other race to this day > the capability to attack us  
as we settle on ..... in principle .... only those galaxies >  
where no other technologically advanced race ....

and because we observe all evolution in our galaxies .....

this is therefore a documentary > no fairy tale >  
even though for a citizen of this planet >  
it may be sounding like a nightmare .....

since their empire .... their paradise >  
at best a ... hypocritical ... seemingly decent  
and their power position in it ...

the freedom to enslave others >  
their highest priority !

because for people ..... living honorably >  
responsibly ..... is simply unacceptable for them !

the further development ...

> 10 years after <

after arriving here at our new home ....  
we are preparing ... to live here!

by taking samples of all ... through a planet rover >  
from each plant > animal > vermin > pathogen .....

then we create vaccines > to live healthy  
without diseases ... any deficiency or poisoning !

the new planet ... a little smaller than our original  
therefore everything is easier ... to realize and much easier handling ...

our new sun ... a little smaller too >  
having a rest life time ... we hope almost 10 billion years  
having less UV radiation ... our year is much shorter ...

but as we will be on the border of the tropics and subtropics  
the plants there still having enough time to mature

and because there are always different kinds growing ....  
some thriving in the winter time .... some in spring ... summer or autumn .....

we will be having no problems !

we explore a place on a river  
the location being in a desert >

but massively fed from a remote mountain range  
where on both sides everything grows in abundance !

on the steep hills on one side ....  
we build an underground settlement in the light tuff  
where already natural caves exist by erosion  
we are digging further inconspicuously  
from these

for our underground settlement .....

where every morning the sun is shining in ...  
to wake up every one !

then we are working in the work shops until lunch  
afterward .... working outdoors ... getting animals and fish  
until dinner ...

as well > we are having under the protection  
of the trees along the river

the laundry ... baths ... and all big workshops set up  
and the big kitchen ... because there to every thing >  
easier to transport to !

and there ... we as well are eating all together ....  
afterwards only contemplation and discussions with the family .....

the first children of this new world are growing up  
and some appropriate .... after their training  
will then colonize other worlds !

we are using the thermo nuclear generators of the robot ships  
to having energy .... until we build bio gas plants  
where all the bio waste will get in there .....

for cooking and preparing hot water!  
for our gas power plant ...

afterward shall the mud again be supplied back to nature  
as a fertilizer!

we do not want to use hydro power for now ....

until we are sure > that it will not expose our existence

so far > no report from the telescope on our spaceship  
meaning no imperial ships or probes ....

we find crude fibers to weaving ...  
for fabrics and making clothes !

we build an outrigger sailboat to crossing the river ...  
and trips to the nearby coast ... where grass seeds are growing  
and everything other we can use !

to getting all we need .... for the growing population ....

> the end of empire <

we learn from the robot ships ... left at the exile planet >  
that the emperor and his two henchmen ... are death >

and many years later> that by losing the emperors ship >  
the embarrassing dis empowerment on our part ...  
even the empire itself sinking into chaos >  
over all those riots and sabotage >

as the empire now headless > without true knowledge ...  
and character >

every one trying just to savor rulers paradise !

resources squandering > contaminating the environment>  
instigating wars > destroying all >

only for the preservation of their power ...

until only a few > in miserable existence .... remain !  
from this empire will come no danger to us ...

but we know that not ... until much later!

> the first generation <

the children thrive in this heavenly environment  
we do not have the slightest problem !

we can take on any problem immediately and directly address  
to find a general realization >

the education of the spaceman going ahead as well ...  
only no one really ... wants to get away from here >

therefore we decide > to first develop this world more >  
before some of us leave it ...

to populate some other planet !

> the commander going his way <

he has developed a way  
for immaterial remote sensing > other worlds  
where higher animals have already developed >  
to serve for the incarnation of our religion .....

he predicts > that he will leave behind his body now for ever  
and will go to another galaxy with out it > only his spirit  
because the distance for manned flight > is much to large !

he will help the native population there in their own system  
developing towards > according to our religion .....

saving them from going into barbaric competitions  
through incarnating him self into the native population !

he informs some of us > of a means to call him  
should we need him ..... or he him self ... us >  
but he can only with his spirit coming back to us >

his body we should bury after his death .....

..... the message .....

on the inter galactic frequency we receive one day  
a wireless message > from a radio amateur ...  
reporting of the end of the empire !

we are considering what to do ?  
we could fly to another position >  
to not directly betray us ...

and reply from there ...  
but what could help this ?  
such a sick population as this there ....  
no man can help with words !

there is not even a possibility  
our intention ... our lives to describe there !  
they would not believe us even >

that there are homo sapiens in this universe!

and why would anyone want to limit itself  
in its power ruling ... for to good of the future ?

if these offenders there  
only just do not want to do this !

we could fly there >  
and what could we do there ?

we could start a war ....  
with these now stake holders >  
could free them > of their stupidity !

but who would want this ?  
we want certainly no war >  
they want ....

only their irresponsible life !  
this now crystal clear ....

so who then wanted to start a war ?  
if not any danger .....

no chance of having any success ???

there is not even a real law and order there >  
not any real religion for homo sapiens !

no conscience > no haze of something other ...  
only endless power play ...

and when we would free those slaves ....  
and selecting a 1000 from the general public  
and then flying them here

we would have 1000 potential tyrants here >

problems for our future !

there is a treatment for those >  
but since they would have to want to first being healthy >  
and which a disease wants to get ... well ?

we thought that it was just >>> the emperor !  
but now we know > that it is also each and every one  
tacking part in this >

because ... we could have taken part in this further >  
in this eternal game of the rulers paradise ...

where only the position of power decide >  
how much does he savor !

how many resources squandered ....  
how much the environment contaminated  
how many people forever tortured to death!

of course ... we will not reply >  
as we never send out radio waves !  
which can leave our world ...

we shudder only ... if we think of all of these !

it is not just about our security >  
it is about the future of this whole universe ....

100 years after ....

we have many settlements on our world  
we visit with our vector fin outrigger sailboats  
and deliver key parts ....

we build solar power freighters for inland navigation  
and areas with little wind ....

we have at a waterfall ... far above our river  
a hydro electric power plant ... installed underground >  
and on the cliffs there >

a roof with vegetation on top camouflaging a factory  
for our robot ships and space ship production ...

for ground transport > we build desert rovers >  
with solar powered electric drive ...

of course bicycles ....

with direct front wheel hub drive !

we stay young through proper eating  
and as well exercise every day in the sunshine ...  
of course because of our satisfaction!  
and because we know ....

to be doing the right thing ....

we use> the thermo nuclear generators >  
from our robot ships etc > after exchange >  
for a long time coming !

for example in the settlement area  
where the weight factor / current output are of no concern

then after centuries using them there > the remains >  
are smashed further by artificial neutron bombardment >  
till these residual isotopes to becoming lead >>>  
nontoxic

over the whole period of time ... the waste heat  
continue to be used or the electricity produced

of course we will mine the uranium > for this to begin with >  
safe > meaning underground > and with mine robots ....

so there will not only be no danger> created for the environment  
but de facto > the radiation dose from this natural source  
even be reduced in the long term

the whole production process of this thermo generators  
and their reuse conversion > will of course be done with robot systems  
and monitored by us via video continuously >

our pcs have ... inclusive monitor >  
a power consumption of < 1 watt equivalent  
because our programs are so optimized >  
that they are only some mbs

and consequently only need a few mhz !

there is only one kind for any purpose  
so there are spare parts and renovation for  
millions of years guaranteed

our lighting fixtures have led > and by over sizing them >  
therefore maximum efficiency > use only a few milli watts >  
under difficult working conditions ... about one watt ....  
and they are functioning some millions of hours

of course we apply sun radiation via mirror deflection  
in our workshops > wherever possible

of course we work normally only in the day time  
and our lighting is for guidance mostly  
in our living places at night ...

## 1000 year after .....

we scan further along our space environment  
crumble all meteors > which are dangerous to us  
so they fall as star dust only .....

we visit for the first time our world of origin !  
and film the destruction caused by endless wars  
and the exploitation of resources .....

but never make contact with the few survivors  
there because of lack of metals > are living ...>  
dying like in the stone age !

we as well are also making no contact  
with any vermin and predatory animals .....

who simply have no use for our way of life  
are pure creature of instinct ...

slaves to their criminal environment !  
simply atrocious ...

compared with us > where you can not even see >  
that there are people living > because we save each screw >  
every piece of metal .....

never make anything out of order  
or build it just for a limited time  
but for an eternity .....

although we seem to have no enemies anywhere  
but just for the esthetics > we camouflage all technology  
laying high voltage dc lines in the river

all the others ...  
can be camouflaged in an emergency!

## a million years after ....

our original world ... does not ... have any more people  
on it ... because of the contamination everywhere ...  
the lack of resources and foresight

and because of this hopeless stupidity  
they are gone extinct ... bored to their own death

we have now settled several other worlds in our galaxy  
and through immaterial mind transfer > some other galaxies  
for our life as homo sapiens

there are no wars > no contamination >  
no hunger in our civilization any where  
because all ... are part of every thing ...  
all have the possibility

within the line of the universe  
to realize all we want ....

we show our videos ... of our former world  
in social .... political ... and religious lessons !

and no one can believe it >  
that there is such a mentally handicapped population possible !

we exchange ideas via mental visits with the other galaxies ....  
as well our former commander

being the beginning of the council galactic central  
as well the beginning of the galactic nation existing already !  
we continuously contact all via quantum communicators ...

the galactic religion ... the essence of our life > perfected  
seeing any risk for our intelligent life ... long ahead ....  
having an answer for everything !

everyone can be helping to perfect ...  
we all want to live in a paradise for all ...

where there are no victims > no perpetrators >  
no shame > no conceit .... all true and real ....

paradise every where !

one billion years later ....

we are represented in many galaxies >  
by mental transfer ....

through the incarnation in advanced animal bodies !

and over all this time to have our idea  
endlessly proven ... the homo sapiens race !

only there was ... just mean idiot selection  
created by such a stupid idea > as this world here ....

where one idiot with the other competing >  
to all these idiots delight ... in their insanity >  
the great stupidity .... their mass of enslavement !

creating meaningless jobs !  
see house hold delivery of toxins !  
people being driven to freak out!  
to preventing any solutions !

see this planet satan here .....

the further development of the galactic religion

we having been thinking all these years about ...  
how we could protect our way of life against any destruction ...  
so .... we develop our religion further >

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from!

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without conceit !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

> galactic central <

we are creating an information institute  
where all knowledge is collected > organized and analysed

> galactic nation <

is there for all homo sapiens ....  
in all intelligent nations of this universe

> council galactic central <

after many worlds in other galaxies having been inhabited by us  
we develop an institution >

where always some of us in their galactic neighborhood  
are chosen to visit by immaterial exchange and keeping  
the connection to all of us !

receiving information for all proposals and provide expert opinions  
for the improvement of all .... on going ... but never telling any thing  
or being told .... only information to being used if accepted by all ...

galactic foundation

*we are the guardians of creation*

the homo sapiens ...

being the basis of our civilization  
for our success in eternity

with his never ending wisdom > his total responsibility  
where no one ... no idea ... no solution will be shunned >  
no resource being wasted > no environment being spoiled >  
no security measure left out

where there is no hierarchy >  
because every one is the most important being !  
at our never ending paradise on any world  
in this universe

we at the galactic foundation > are searching constantly  
finding any and all danger to our society

coming from degeneration and pest

keeping every homo sapiens informed >  
what a difference they are making !

there while any and all danger to our universe  
will be eliminated through >

our galactic pest control program ...

the universe ... can not be an organized crime >  
with its technology > its predatory instinct  
on every world > every galaxy >

yes ... in the whole universe

so ... may not hold people from a responsible way of life  
since this is without responsibility  
since those organized criminals

understanding only their animal instinkt ...

the law of the universe >

each one citizen can only use his world  
for a purpose of the universe > for creation !  
and not for the destruction of their worlds  
and certainly not for the destruction  
of all responsible life ...

every little child knowing this in our society !  
and everyone can understand it >>>

because they are having a comprehension ...

fellow humans ... should therefore their fellow human >

to be an inspiration and not an inspiration for this >

end to your world > but to be keeping it as long as possible

> meanwhile > all people are so healthy

and always living healthier!

always freed from any danger  
doing less and less for their material needs  
not this one day throwing away production  
not these hamster wheels >

with those migratory locusts economies  
the end of your world and the end of all intelligent life  
already achieved

a technology may only serve the people  
not for his enslavement > not to being terrified to his end  
not as a drug > because he's not able to stand this reality  
can not bear at all > can not stand

not as a conceit > he would be a success >  
not as a distraction > from reality

but we need homo sapiens > no idiots selection  
for a secure future > for a future at all

so we need the education to a homo sapiens  
not to a suicide assassin > these all are .....

because there is no fundamental difference  
between any Islamic state > and his religion  
or such a satanic state > who puts his delusion through

no difference between such a terrorist president  
or such a freak out > who seeing no other choice  
as just to be shooting around > just like all of them  
terror states always are killing all resistance !

just to not grasp > that this whole world being the problem >  
and no one has a solution!

nobody wanting a solution ...

the individual ...

can not be let to enjoying his idiotic egoism  
at the expense of the environment and its fellow human beings

nor can he be enslaved > to a mass of insane >  
to let their masses enjoy idiotic egoism  
to destroying their world and destroying the people  
to this horrible reality today

the only possibility for a sustainable world  
and a society worthy of its people  
to an endlessly functioning environment

an endlessly functioning society

be ... that all first  
to recognize the need of a valid order!  
and implement this > that all >  
endless with one another in an open dialogue  
every day > always discussing the reality anew  
where everyone has a voice > not just the mass >  
meaning a majority of insane  
as now!

and consequently use this public truth  
as a basis for your all decisions made  
to realize a real righteous state  
to fulfill all valid laws  
to living a valid religion

homo sapiens?

only harm can come from them!  
to the climate > the resources >  
the seas > the land and the future !

of course to every homo sapiens > who knows  
that all this harm to his world will end it ...

## the meaning of a human life >

is to work out a decent way of life  
realize it > live it > guarantee it for all !

because only then .... is he a human being !

and therefore there is no meaning here on this world !  
as there is no humane order

because humans only want to live decently  
can be > must be ....!

otherwise they will be dissatisfied with themselves >  
until they can live as humans !

so to achieve this >

the meaning in life of each person ....  
is to make just this happen !

until then ... they feel like losers >  
indeed they are .... in reality!

only by their conceit procurement >  
this is represented as a success >

## eves insane aspiration of the true love ....

thus ... the person she will select > being as in any animal tribe >  
to spoil her immeasurably .... this existing for millions of years  
and until 100 years ago ... this was just inhumane !

but today .... this being the big animal love ...  
straight to be the problem ... because eve still >  
will marry the great pamperers ... materially and or psychologically >

a homo sapiens having not the slightest chance !  
only these clever critters .... trained by her ....

eve ... was and be never so generally suppressed !  
but in a stone age society > roughly equivalent with adam ....

but in this western version > where eve can sit around  
and wait until her requirements of this insane love is full filled >

guarded by a so inhumanity as this insane western society >  
where useless work being created and trained animals > state licensed >

she be the absolute ruler > the tyrant over life and death !  
since she needs no man > biologically speaking .... emotionally  
but man be entirely dependent on eve ....

else nothing will come of him > even with a pope >  
he adores ... yes > must worship mother mary !!!  
otherwise he would never becoming a Pope ....

of course there are exceptions >  
of any outbursts over all this injustice !  
so if a man .... to lock her in the cellar

or he makes his exploitation >  
to have access to a biological necessity !  
he never could work out under humane conditions ...

so eve be .... with her animal demands >  
and no responsibility for the future or humans  
be the cause of this worlds dying .....

and as long as this insanity of the suppression of eve >  
being perpetuated in a single nation ... for selfish motives >

for men .... the world to be put to their death >>>

as long as there will be no rescue for this world  
consequently ... we need of course eves great friend >

the trained predator >  
discarded from all areas of human society !  
because children growing up with predators >  
will be just idiotic offenders ....

they .... of course .... to make no future !

just homo sapiens > the now soooo oppressed ....  
being capable to work on a solution >  
to realize this worlds rescue .....

but those in fact .... can not exist !

## how is an eve supposed ?

to care for something other ....  
then savor heir satanic symbiosis fully !  
if no one will constrain her > such as a religion >  
a tradition > a society!

while .... in this country they are so glorified by all >  
because they too .... are just a mentally retarded choice !  
from this it follows ... a mentally retarded world .....

how is some adam ?  
care for something other .... then to savor his satanic symbiosis  
if no one here to force him other wise >  
such as a religion > a tradition > a society !

while in this country he is so glorified by all >  
because they too are a mentally impaired choice !  
from this we follow a mentally retarded world .....

how is a free market economy to function ?  
if they may only build rummage > going of next week in the garbage  
while the climate being flipped > squandering the resources >  
environmentally damaging ...

otherwise they will not selling long any thing !

how is there supposed to be justice ???  
in such a satanic world ....

and how should this pest allow ... any homo sapiens ?  
if they can not be in a position to >

even knowing > what was right .... or wrong .....

## as soon as the individual ....

themselves are out of bounds of the general future design  
for example ... because they want to hide their criminal intentions ....  
meaning ... this idiot selfishness .... to further savor just this ....  
or any individual > the responsible > being excluded !

can this be no humanity >  
but a criminal association !

because only when all have part in it .....

and most importantly ... may be part of this >

can this be righteous and consequently .... an honorable society !  
and the honor of every one must always be the first priority ....

thus we need all to be heard >  
observe all valid arguments >>>

and on this basis .... meaning this compiled ... public reality >  
make our decisions > our future design !

otherwise this is not a rule of law ....  
but a criminal association ... as usual ....  
this will not be functioning long

see as well the 11th commandment of the galactic religion !

and only having a decent ... honorable future design a true living together  
can prevent disasters > since they take into account all the reality >

where as any criminal association > meaning all of them now >  
end necessarily > because of all these disasters they are creating >  
because they have not ... the reality as their counselor !  
but their fata morgana .... where no water awaiting  
though their equally insane >  
delusion procurement !

## homo sapiens ?

it is not ... that those masses are insane >  
so actually the opposite of rational !

but all of them ? .... competingly criminal ....  
which should be condemned by every law authority !

since they are all ? .... a general danger to this world > since inhumane !  
condemning each other .... to state forced labor >

forcing each other .... to drug selling > toxins > narcotics >  
and buying those ! .... in absence of any thing else to do >

entertainment >>> artificial > visual and hot sounds !  
for the distraction of this gruesome reality .....

traveling to other mass delusional centers !  
or the really big delusional freedom >

the patient nature .... and their " loving " animals !  
the certified freedom from a humanity .....

life should be about human dignity !

about an intelligent life ...

because only if every one is being treated as an intelligent human  
can there be a human civilization long enough to even blink your eye

so ... life should not be a game at ever higher levels  
should not be about > making out of pawns > big players !  
that is simply absurd ...

because the planetary resources will not be there long enough  
for even a million years !

nor the very environment !  
nor an intelligent population ...

because players will not be responsible citizens !  
because their endeavor having just not this very important >  
basic ingredient in there !

so .... we need no highly educated players !

we need responsible entities ... and their capabilities are then used >  
for the security ... the human dignity of all .... for a billion years !

on this planet > and for eternity .... on other worlds ... in other universa

so ... all power emanating from the government should be about >  
to guarding human dignity ....

or every thing will be over in a 100 years !  
its clear to see .... for any homo sapiens ...

## epilog

this population must becoming sane or disposed of!  
there is no alternative for the universe ...

so free and secret majority voting  
must be abolished

and publicly argued on an internet forum  
for solutions where everyone can participate >  
where everyone to put forward a better argument >  
to one for all binding solution present > no mass delusion!

because the majority is always wrong >  
and only a few right and we need a solution >  
we need an argumentocracy!

can some one suggest a better argument ?  
for a responsible life ...

and only a responsible life  
can save this world > no mass delusion !  
is this clear to all ?

because democracy was already wrong  
according to some of the ancient greeks !

so it must be made public > that women are not suppressed  
but the cause of all problems > meaning the problem !

because she only dreams of the destruction of all higher life

so we need the education to being homo sapiens !  
so a galactic university > showing the solutions

## **the security in a galaxy ...**

can long term never be reached somewhere

through violent measures  
not corresponding to cosmic reality  
being only excuses for the rulers there ...

and excuses for the terrorists > who >  
these violent orders can not accept ...

only an intelligent life

[our cosmic community](#)

# **why am i still here?**

of course  
because it cannot be ruled out  
that this criminal selection

somehow survive !!!

and with her search to destroy everything

at some point becoming  
a threat to the whole universe!

there fore a danger for  
all intelligent living  
over all in this

a shame for the creation this one in any case

so I have to work on this  
work out the exact situation!

because the sooner we know about it

the better ...  
be that for all homo sapiens !

all over ...

**the aspiration**

of every existence  
should capture reality  
to be of his existence

the apprehension of earthly reality  
the capture of cosmic reality

and never the escape from this reality  
so the escape from any responsibility

where this all madness resulting from

it is about the realization of all people  
not about the realization

of his own madness  
because the person in question is unable to  
realize himself

but only seek his freedom  
to create his vanity ... insanity  
because he be about to kill his world

every human

so it is about gaining wisdom

no power to exercise can be guaranteed  
no escape from wisdom

because you are on the run  
before its failure

the quality mark of an individual

so existing  
his ability to argue  
not in his power ability  
with the help of his mass  
incompetent

destroying everything of value  
so all of these on here ?

I can so far

not find a single one  
that does no harm

so be a plague  
and this democracy  
is the evidence there for

mean while an argumentocracy  
the proof that this argument is capable  
be able to prove their worth

that because all democrats  
prove their rulership

democracies  
are based on their principle  
of power seizure of the majority

hence this power seizure  
nor do they guarantee human rights

but only rulers  
so damage rights

climate tilt right  
enslave rights  
predator rights  
contaminate rights

so everything  
only harm

meanwhile an argumentocracy  
the evidence of a human race

who can not argue  
can not be human  
but an animal

because unconscious  
the are driven offenders

would these democrats be worth anything  
then they could all have this value

conveying to every one

they guarantee a legal state  
without police ... military ... probaganda

so we only have quantity here  
equal amount ... equal destruction

not a single native person  
there is no wisdom

no rule of law

only the argumentocrat  
has the wisdom  
being right

the quality  
the being in themselves  
the value decides

who ???  
can give a better description  
deliver a better reality ???

who ???  
a better solution ???

of course for all homo sapiens  
in this universe  
so this one

million x million x million

do you have a better solution?

can they even know anything?  
or do science?

or just with the help of your mass

destroy their future!

# sapiens

only with a responsible life style  
can this world for the next million years be a home  
can humans ever live here

and how do we do that ?

only possible with reasonable humans  
so we need a real constitutional order  
so a real public truth !

so a party for the homo sapiens !  
the people > one of them would offer accordingly

and where do we find voters for a party  
where no world is squandered .... no 2nd venus ?  
where people do not perish ?

we have to develop these !  
have to have an international forum  
where all these having a chance to develop ....

so ... they need the necessary frame  
meaning right in here!

# the secret

of this world ... consist of >

that all this billions are a shame  
there while highly regarded !

who can not even read and write  
any constitution

do not bring about any meaningful dialogue  
of course can not guarantee real human rights

certainly no world to hold up for the coming  
of those hundreds of millions of years

and why ?

of course... because all are choosing certified shames

which can compete every day with all those  
other competitors

and every one still human  
is just astonished and wondering >  
how such a mass of shame is possible ?

and the answer is quite a matter >  
these are all switched on to the same insanity

## the tyranny ...

of this competing masses of delusion  
are these billions and no homo sapiens ...  
not only having not achieved anything  
all those centuries

but wasted this world already  
and all those humans with it !

## real homo sapiens >

are organizing themselves  
for the purpose of guaranteeing every one  
a for humans worthy life style

## star peace

## any human

is being free >  
the universe to watch over and every one homo sapiens  
and experience his own paradise every day

**on cosmic reality**

infinite cosmic reality  
being the essence of creation  
saying that any human  
any humanity

can only finding fulfillment  
if as well fulfilling creation  
and not destroying any thing  
not any one environment  
not any humanity

so

for as long as  
you are not knowing  
infinite cosmic reality

you will not be free  
to deciding on your existence  
since you can not know  
who you can

be

so

any valid religion  
will never force any thing onto  
any homo sapiens

but will make him free  
to fulfilling himself

we are star dust  
we are a trillion  
we are invincible

we are beautiful  
since we are sapiens

and I can do any thing I want  
since I am one sapiens

of those trillion sapiens  
wanting all the same paradise

in all this universe

trillion =  
million x million x million

I

I want  
I want to be

I want to be free  
to being a human being

I want to be free  
to being part of a humanity

I want to be free to believing  
in the cosmic religion

I want to be free  
in creating worlds of wisdom

I want to be free

to saving every environment

I want to be free  
to saving every human

I want to be free to believing  
in the meaning of life

I want to be free to believing  
in fulfilling creation

I want to be free to believing  
in living a healthy life

I want to be free to believing  
in eating a healthy nutrition

I want to be free to  
living in the cosmic nation

I want to be free to living  
under an intelligent order

where every body can believe in  
where every body can believe in

I want to be free to believing  
in living fore ever

in living fore ever  
in living fore ever

I want to be free  
to being a human being

living in our cosmic community  
living in our cosmic community

I want to be free  
I want to be

**now**

## **what does this mean ?**

it means

that the only freedom any human needs  
is to being able to being a human being !

so ... why do you not want this freedom ?

why do you not want real human rights ?  
why do you want predatory rights ?  
why climate killing rights ?

why destroy any environment ?  
why destroying humans ?

the only entities of value !

## **any true religion**

any true morality  
being not made up by some one  
to stifle you in your fulfillment

on the contrary  
it is being shown to you  
so you will not stifle your self  
in your fulfillment

your freedom  
your are having today  
in your state in your nation

is not there to help you  
in your fulfillment

but being there

to wasting your global climate  
wasting your global environment  
wasting your humanity

so all you have to do  
is realize your real freedom  
in fulfilling yourself  
at the same time

by fulfilling all of your humanity  
all of your cosmic community

you are then free  
to doing any thing you want

so this is all you have to find out  
what your really want ?

**what do I really want ?**

## **creation being**

not about today and tomorrow  
not even .....

about this world in millions of years  
still having sufficient resources !  
a life supporting climate .....

as well .... not in this galaxy ....  
in a thousand .... in a million years  
settle on other worlds ....

or in a hundred million years  
if this here goes to an end !

when this world here will becoming a sun  
ever more intense

not even in trillions of years  
when this cosmos having become almost infinite  
with all the galaxies being so far away from each other

that the space between them having become dark and empty

not even in more time ...  
when the last star having been burned out  
and all this universe becoming  
entirely dark and empty

there while all this time  
endless new universa having been created  
with endless worlds of wisdom  
some where else

in the infinite space

so ....  
this is all about eternity !

and everything not compatible with this  
is worth nothing ....

### **why are you ?**

one of all those billions of insane destruction ?  
being unable to even having a possible chance  
to keep your environment !

for the next hundred years  
for the next million years to come  
letting alone for hundreds of million years  
possible

because you are a product of those masses of insanity  
all striving for their survival > their vanity  
their very existence

because all your nation will not consider  
even letting one second ....

to be coming up to guarantee  
real human rights

since this would not be good for your economy  
this would not be good for your vanity

not being able to waste all this energy  
on all those means for this mass destruction  
for all this military might ... this police state

this mass of insane car drivers  
flights to no where !  
air conditioners  
heating plants  
street lights

so what could be done about all your billions ?  
if you are not able to care  
about your environment  
your humanity

if you are a danger to all our universe !

will you tell me ?  
what we could be doing to preventing  
our own destruction ...

of the destruction  
of all those worlds to come  
of all this galaxy ...

all those galaxies to come  
of all our universe

if you are not stopped  
now ?

[galactic foundation](#)

## **the escape**

from cosmic reality

ergo  
the goal of all of these democracies

meaning  
the realization of the individual  
being the tyranny of these masses

can only be a catastrophe  
as everyone having eyes  
will be able to see

this will not only  
bring no fulfillment  
but only death  
to all

so what do we need ?

we have to assume  
that not a single entity  
will be excluded

since  
as soon as any single one  
wrongly be done harm to

because of its existence  
being excluded

from the fulfillment of all

will bring only war  
disease and death to all  
so just the opposite to  
fulfilling all

and now we the universe  
just need one of them all  
here on the planet satan  
just to see this

otherwise  
the galactic pest control  
will have to relieve  
this pest

of their suicide  
of our whole universe  
they would be pulling off  
so they would not be stopped

and then we need  
an argumentocracy

this always producing better ideas  
produce better solutions

and that never again  
a single one

will get the absurd idea  
of self realization

since this will  
never work

as we are seeing

the absurdity  
of this world exists in the reality  
that everything that means the end  
being glorified

and every vision  
of a redemption

at best be ignored  
by all these being principally crazy  
their whole quality being

that they are not even potentially  
sane

we are a trillion homo sapiens

in about a million galaxies ...  
on about a million worlds each  
with about a million population

where there is in all those  
no war ... no poverty ... no in justice  
no slavery ... no vanity ... no conceit

because we are governed by

an **argumentocracy**

where every one > can bring forward  
a better argument

being scientifically proveable

and should no one bring forward a better argument  
then this can be the one being accepted  
by every one

or can there be a better argument ?

so there can be no one to blame  
for any problem being ....

every one here  
in our cosmic community  
will be from birth >

our paradise explained  
and why it is so without any problem

and then they are asked again and again  
whether they want it or what they want ?  
and then ask someone ....

if that works too ?

until everyone knows ... why it is so good here  
even before you get to school  
they know everything

there while here on planet dirt  
nobody knows until his death

because he is the victim of an idiot selection  
meaning they are something very special  
> a very special idiot

who never can save a world  
and people just faint from ....

since everything is just a fata morgana  
everything just >>> imagination and  
conflicting stupidity

quasi a self murder program  
for all these billions

# the argumentocracy

where everyone has a voice  
not the tyranny of the crowd  
not the tyranny of a tyrant

the argumentocracy ...  
in principle not just the only one  
to be right decision making

but she also forms with her argumento culture  
the best citizen

from this follows

that only the argumentocracy  
the only human form of government can be  
like us ... the trillion homo sapiens in the universe  
found out for a billion years  
and work through that  
this is confirmed

that everyone can understand

there

when a decision making  
to go from anything else  
how to find the best solution

if a party assumes it  
if every voter assumes it

whether his solution  
also politically feasible

then we have the catastrophes ...

then we have climate right ...  
resources squandered rights  
especially frustrated voters ...  
annoyed citizens

the higher their intelligence ...

there is more and more evidence of ...  
that they can not achieve anything  
because they have no voice  
in this democracy !

because even the inventors of democracy ...  
the ancient greeks ...

at that time already some knew

that their invention  
has this principal error  
that this will cause a catastrophe

because we are going to look at democracy  
so this is not just a fundamental catastrophe

but select this  
yes ... educate the catastrophe potential of citizens  
because in a democracy ...

turn everything around the earth  
to come to power with the majority  
and who can think ?

that these ... the right ...  
the best decision makers ?

that is just against any scientific practice !

so democracy is not scientifically based  
not at all scientifically proven

because every party in a democracy ... yes a party program  
that promotes the interests of ... a particular party electorate  
creates again to come to power from this

but

we can not tolerate any power !

because everything has to be understandable  
that is the human feature against the animals  
they always think only about roguery  
these always think of the majority  
they always think about what is possible  
thus ... the law of this law is the law  
for a democracy ...

the 3rd Reich was one too !  
the biggest catastrophe of all time ...

so we need a possibility ... not depending on the mass ...  
making the right decisions ...

and to introduce everyone  
until all no longer different  
only accept the best solution

because they just ...

no better arguments to bring forward

do you have a better idea?

### **already the word solution ...**

will bring all these paranoid pests in panic

because as soon as someone introduces a real solution  
he has no chance

to be acceptable anywhere in this world

the amish have the idea ....  
that too much theory is the end of everything  
but some do not always go along with this

so this world ends anyway  
they do not see that !

because an uncle albert thinking my theory is everything  
and he does not prevent world wars ... either  
and even the atom bombs he delivers  
so to make everything worse

that is not in a scripture  
so not holding onto a Bible eg  
definitely will bring the end

that is without a generally binding order  
in any case > a world ends ...  
people end

So what is the solution?  
of course ... that everyone has to see ...  
that without a binding order >  
nothing will be preserved

you can not believe ... what you want  
you can never do anything ... what you could !

neither as an individual ... nor as a mass!

so we need an order ...  
that prevents this ...

who saves this world  
dictate this !

no climate tilting rights  
no resources to squander rights  
no contamination rights  
no butcher rights  
in the hospital

we can not compete with any parties  
let go on this world ... where one  
compete with the other

talk about ... "consumer prices down  
producer prices up "

that only produces idiots  
because they have a platform for their stupidity

we need an argumentocracy  
that makes every good idea a success  
and any stupidity to failure

so we do not need any parties  
certainly no competing!

and how do we do that ...  
we have to organize ourselves !

## the argumentocracy

just works according to the principle  
of the best solution

so a solution to a problem will be advertised  
then all citizens in a city will bring their solution forward !

when no one can say anything better  
this best solution will be presented in its county

until there the best ... of the best solutions will be taken  
then to the state government  
then to the federal ....

then we have the best of all solutions  
which of course ... has to be scientifically proven  
be in the interest of all citizens

no special interests

because a democracy divides a nation  
because the argumentocracy unites all

do you have a better idea ?

this kind of solution

will as well work in science  
in the industry ... in internet forums

the stupidity of democracy can never work in politics

or any where else

this greek catastrophe

that even millennia ago

many greek philosophers saw as a catastrophe

then

## tyranny ...

this competitive insane anarchic  
can only be the end !

because no homo sapiens are working  
for their very end ... as already happened

no human can do this  
to all these refugees

to lure them from the responsibility

through all this consumption  
to fuel all this consumption  
to all this through propaganda and advertising  
fooled folks write about  
so creating all this work

because I can not even find a note book  
I would want to buy ... that is why I always using just garbage  
get it back to work ... pc ... one out of 10  
free programs ... only

because I will never buy such mischief  
so a note book ... a tablet so thin and light  
that it is not suitable to work with  
not repairable

so we need to be against the paradigm  
everything has to last as long as possible  
and only one model for every application  
and then you need spare parts  
available for a million years

but this is enough  
free beings must decide  
to co-operate ... for the good of their future  
not because everyone tasting his delusion  
to the end of all

that already happened  
because no one competes for 8 hours  
to work every day ... let alone  
from this full employment  
this fully enslaved  
to rave about

so a party has to come  
the goals have ... to fully removable  
no amount of delusional thought

and why is not it ?  
of course because of the woman ... the mother  
only their delusion sensible

only choose this one ... your tyranny  
to realize the end of the world ...

and as a result ... every child already  
one year old... to being the zombie of this monster

and therefore only an argumentocracy  
a shutdown of the lanterns ...  
a broadcast end ...

a power off circuit from 18 to 6 in the morning  
invite to a reflection

and ending all these entanglements  
by developing work

and then be this world  
and all the following already been saved

like with us ...  
the trillion homo sapiens today  
for a billion years

where our first planet  
since that time

not only still living  
but better

when it was a billion years ago

not a single meteorite  
have ever hit our planet  
not a single flood

above all ... everyone is satisfied  
there is no possibility  
for a crime  
for any war

for what ?

and of course in every million  
x million worlds in this universe

already a giordano bruno  
dreaming over 400 years ago

and what did this infallible tyrant do with him ?

# **the norm**

with all these paranoid problems  
insist ... ignore any solution by ..  
to defend ... to deny

any entertainment ... any reason gifted  
ignore as long as ignore ...  
until he gives up the ghost

because their entire existence exists in it  
your problems ... your problem  
to have glorified

her whole problem existence  
to maintain

**an introduction to the religion  
and history of the galactic nation**

**the homo sapiens**

**and the planet of the fata morgana**

this is a documentary  
.... from a visitor > from a far away galaxy >  
coming to us 26 millennia ago > in his spirit only ....  
having now incarnated in our own biology >  
to be telling us the story  
of his own civilization

since we are homo sapiens ...  
we have of course no democracy  
certainly no secret and free voting

but of course an argumentocracy  
meaning ... where is the best solution  
is used by all

because only the best solution  
can be shaping our future for all eternity

where our universe and all worlds

are preserved to eternity

and should someone  
bring forward a scientifically provable  
better solution > then this will be used

of course we have no theocracy

even though it is our entire existence  
to conserve this universe and all its people  
so ... we live according to a religion

there is no humanity with power positions  
but an alienating hierarchy

and alienation creates automatically  
and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism  
since this only can be the end  
of every thing

we create everything that we need  
so .... that we have everything  
and of course we can keep it  
for millions of years ...

## **prolog**

on this planet ...

it is like a fata morgana !  
you do not know what you even could do ...

because there is sparkling water in front of here

but actually you know >  
that there is no water there !  
but what else can a man do?

just to continue ...  
because here at this point >  
there is surely nothing to drink !

and there in front > there is no hope !  
only at the end your dead by boredom ...

because this world is becoming the second venus  
so only boiling water ... when ever ....

because there is not even  
a consciousness somewhere ....  
no dialogue or public truth

only all these thirsty  
trying with their last strength  
reaching the water not being ...  
there!

## the visitor

already from space coming ....  
any intelligent visitor ... will see >

that this planetary population can be no homo sapiens !

just looking at the illumination of the dark side of the planet !  
and this mass of radio transmissions for broadcasting .... entertainment

when every one should be resting !

because every human needs contemplation ....  
otherwise he will be > becoming insane !

then ... when the visitor .... closing in .... and all this garbage ..... to be seen  
he can only turn away disgusted >

and when we are coming down on this ... "earth" .... then ...  
every one is running from one drug of entertainment >

to the next > drug of food .....

or this guarding the peoples humanity >>>  
with wolves > with state licensing dog tags !

or just looking at those ideas > this population has  
about an extra terrestrial civilization >

no longer ... any ..... rest period .... at all  
just endless fun !

or the "search" of this earthlies >  
for extra terrestrials ... via radio waves .....

then we know for sure  
that this can only be simply a mass of insanity

and should more evidence of this be needed >  
then we need just to look at this animal love !

when every homo sapiens is knowing >  
that animals never want to live in human dignity ...

this is a very unusual superiority >  
of the homo sapiens in this universe ....

consequently they are > the only such > long enough there >  
not just to settle one galaxy ....

but the whole universe !

## documenting a day in the life

of > first planet < in the year 154 after creation >  
of the first human settlement in this universe .....

note .... a responsible life style ...  
can not only be the biggest fun in the universe ....  
but being the only life style ... working endlessly ....

because every one can be convinced of what he should be doing !  
forever .....

we are looking at > first planet > at our very right >  
our sun > below left > what is looking like a tiny moon  
being the space ship > watching out for the safety .....  
parked in geo stationary orbit over the settlement >  
with only the sensor doors open !

we are seeing no lights an the planet be low !  
no sign of any settlement ... or manufacturing >  
the only thing to indicating any population as of now >  
are the out rigger sail boats beached > the solar electric rovers >  
the solar powered river boats ....

but there is an emergency plan ready  
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river fall is not operating  
the lights for orientation in all the housing and control centers  
is being supplied by tiny local thermo nuclear power plants  
from the former uses on the robot ships  
and planet rovers ....

there is no other kind of any human population any where from here ....  
naturally ... no broadcasting of any radio trans mission of this world  
can be received at any distance !

as all communication is done > by quanta communicators >  
low power short distance equipment or through under ground lines ....

we are now in the main command room >  
the display showing >>> automatic surveillance mode on >  
no space sensors > no space ships >

now asteroid on coordinates **6 39 15.70 > 2 16 22.17 >**

received quanta message from planet two >  
but no frequency messages >>>

since automatic mode started !

the crew sleeping > like all residents be low on the planet ....

we are now going toward the first planet > seeing a robot ship >  
monitoring the settlement > seeing a predator going toward it ....  
notifying the nearest planet rover automatically at the planet surface  
there the animal repulsion system is activated >  
and the tiger is making a U turn and going off

we are now in a cave > at the rivers bank >  
seeing two children in the dawn of the new day !  
the increasing light being brought in their room

by an automated mirror from the rising sun >  
the led clock showing 5 45 .... the date 05 03 000 154 > at this moment >  
the boy is waking up and looking what time and saying aloud >  
will to be getting up soon !

when his sister is opening her eyes too .....

now we are in the kitchen of the cave >  
where the boy is telling his parents there >>>  
that he does not want to go to school today >  
but be playing with his friends at the river ....  
his mom asking him >

what they are having in school today ?  
and he startles ....

because he was to show off his experiment of mixing colors today !  
so ... he thinks > he will be going to school today after all ...  
to be showing off >

an electric motor  
where a disk of all colors in sectors ....  
will be becoming an off white once turning ...

the mother saying > we are having >  
commanders day 100 th anniversary coming up in 3 days  
then we will all be having off ...

and dancing and singing together all day long  
do you remember what he has done for us ?

yes ... says the girl >  
he was the founder of our religion >  
he and his crew of a space ship

put the tyrant and his bandits of the empire on a planet to die ...  
while having time to realize all their wrong doing ...

and settled this world for us >  
free of any wrong doing ....

I am > because we all are !  
and we can be > because I can be .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without any delusion !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

then he went off in his spirit later on >  
leaving his body behind here >

to be helping a native population  
living after our religion in some other galaxy !  
and this day we are celebrating >  
what he having done for us ....

all their other relatives are coming in now ...  
many being over a hundred years old !

they are fixing breakfast now >  
from the seeds they have been collecting days ahead  
and rolling them out >

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school >  
half of the adults are going collecting lunch ingredients  
the others going to their work ....

since this being the first settlement ...  
the galactic council being here

and the co ordination of all the things to being done >

the council members  
are considering the danger from the asteroid >  
sending a robot ship to it > to making star dust out of it >  
to fertilizing our planet !

the message from planet two will be considered now ...

*to our dear galactic counsel members*

*as you know ....*

*we have arrived at our new home month ago !  
taking inventory of all plants and animals  
pathogens and toxins ...*

*atmospheric components being confirmed ...  
animal population is in a very early state !*

*having selected a location for the new settlement !  
like our first> at first planet ... at a river bank  
in a desert within the tropics >*

*since the sun shining less than  
at first planet > we will be limiting the settlements  
to the near equator ...*

*there are limited places for caves ... so >  
we will later be building partially submerged housing there >  
since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...*

*we will be all moving into our new housing now >*

*to be celebrating commanders day ...  
all together on our new future planet !*

*leaving the space ship two > at automatic command mode ...*

*our dearest regards to all of you >  
for having made this possible ....*

*commander ss 2*

the counsil members compose a reply and congratulations >  
for the successful start of a new settlement ....  
on the second planet ...

there while in a another galaxy >  
the spirit of the commander !

still working on the evolution to a higher race >  
there !

the harbor being down river >  
the space craft factory being at the hydro electric plant  
up the river ... right here >

many service work shops for all the technology used  
note books having direct led screens ...  
every pixel having one triple led  
using less than 1 watt >

the rest having only 100 mhz >  
and the OS being optimized

as well as all the applications for this ....

there is only one model for each use >  
and that being build to last a 1000 years ....

then at 11 they all coming together again to eating lunch  
under the trees by the river ...

then at 1 pm they are going  
to take place at the workers who are now hunting  
and collecting for diner and the next day until 5 pm

then eating together with their families ...  
after they are just resting and talking things over  
so no problems are unsolved ... till at about mid night >  
they are having a snack

to be sleeping again till the morning ....

### **there is no hierarchy ...**

because this would be an alienation  
and be a coming problem for all !

everything must be transparent >  
everything must be understood by all !  
only in an emergency > there is a command structure >  
thus > in a spaceship > at a sea crossing >  
so if there is no time for talks !

but even then all orders ... spoken  
about in retrospect and reviewed by all ...  
to find the better answer !

just as there is no democracy or theocracy ...  
since only ... if all can agree >  
the answer can be right !

and only if there is no time there will be >  
temporary solutions used ....  
till a better solution is found !

and should any individual or a group  
not be responsible for our universe >  
not willing to be responsive ...

then this necessity  
will be carried forward with all force !

while there is every freedom to act on your own >  
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !  
because as soon as anybody is excluded  
he will be feeling alienated ....

then arises >>> a criminal association ...

and each organized crime on a world >  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing >  
and what effect this is having on eternity ...

## > genesis <

> the emergence of the first homo sapiens in this universe

..... it happened in another galaxy ....  
more than a billion years ago >

## >>> the suspension <<<

the location > a space ship of the imperial forces on a reconnaissance flight  
for a potential new colony

> the commander and his crew >> being the members of a new religion  
schedule the launching of quantum communicators  
for the posting of fictitious place data intended  
for the imperial center through robot ships .....

this data adhering to the prescribed course !  
as well as some quantum communicators

for fictional communications ....

as soon as those are on the destination  
they will fake the destruction of the command spaceship

the robot ships will then return  
to the mother ship on the new course >

the other quantum communicators >  
have already been secretly destroyed  
through the removal of the entangled quanta  
in these .... forever ....

therefore it will no longer be possible  
to communicate with the imperial center

today the powers of the imperial center on this spaceship>  
will be disempowered and deposed on the nearby planet  
only with the possibilities of primitive hunters and collectors

two robot ships will be left on this world >  
to enforce the conditions >

create no signs for any one to see from space  
no settlements .... plantings > markers  
no radio or light ... fire sign development

otherwise they will be every time > be de powered > a method  
the individual lying for hours in terrible pain ....

until they adhere to the conditions !

they should have time>  
for their gruesome slavery methods becoming conscious of !

at this meeting >  
the emperor notifying to his claims >  
as supreme commander and as the owner of the spaceship !

which is countered >  
that everything belonging to the creator of this universe  
and we are just the managers of all !

that this ship was built by millions of hours through slaves  
it being on time .... it will perform a righteous purpose !  
use it for a decent way of life in this universe ....

after this meeting >  
there remain only the emperor and 2 of his adjutants to be deposed of  
since there are some minors of the imperial center > joining  
the new mission> which provides >

that the spaceship diagonally at this present course  
going to a planet known only to them >  
but not by the imperial center >  
through ....

distortions made by the crew

but this region having been carefully explored >  
providing ...

that the new ones are not found ..... so easily

they could no longer .... stand watching  
the slavery emanating from this empire  
have for years thought of a way  
to be sneaking a way

to live a simple and decent life in this universe!

and this priority for their future security ....  
will from the beginning be their first priority >

they will only create underground settlements  
only collect naturally growing fruits and  
catches of wild fish and ... hunting .....

until in a different galaxy  
they can be sure of not be coming prisoners of this empire again ....

they will only use animal paths for their movements >  
but they will not keep any animals >

since this would be incompatible with their religion  
because animals are no decent .... citizens >  
friends or neighbors !

they will of course not make any lights outside in the night  
and absolutely no power broadcasting of radio waves !

they will for their communications >> their energy >  
use only wiring >invisible > underground .....

because their religion allowing no light at night any ways >  
except for orientation at their home and necessary news >  
no distractions > no entertainment !

should later bigger settlements  
on different continents > islands of their new world ... develop  
then the quantum communicators for news etc  
will be equipped with new entangled quanta  
thus ensuring a secure transmission

they will make the spaceship invisible by perfect camouflage  
for the transition use it for their food research + health care

and then later> when new generations have been growing up >  
colonize many other worlds with .....

to better the prospects for their survival !

this >  
the story of the genesis of the modern homo sapiens  
in many galaxies of this universe >

their development of the technology

for un manned colonization to other galaxies .....

giving ... no other race to this day > the capability to attack us  
as we settle on ..... in principle .... only those galaxies >  
where no other technologically advanced race ....

and because we observe all evolution in our galaxies .....

long handed in advance ..... each .... even the potential  
of a threat to our way of life .....

the further development of the galactic religion >  
the galactic nation and its institutions in many galaxies  
and of course> the history of the emergence of the .....

council galactic central

being a new meaning >  
because it never is telling any one any thing  
or being told what so ever

but just bringing forth the best solutions  
every one can be agreeing on

this is therefore a documentary > no fairy tale >  
even though for a citizen of this planet >  
it may be sounding like a nightmare .....

since their empire .... their paradise >  
at best a ... hypocritical ... seemingly decent  
and their power position in it ...

the freedom to enslave others >  
their highest priority !

because for people ..... living honorably >  
responsibly ..... is simply unacceptable for them !

the further development ...

> 10 years after <

after arriving here at our new home ....  
we are preparing ... to live here!

by taking samples of all ... through a planet rover >  
from each plant > animal > vermin > pathogen ....

then we create vaccines > to live healthy  
without diseases ... any deficiency or poisoning !

the new planet ... a little smaller than our original  
therefore everything is easier ... to realize and much easier handling ...

our new sun ... a little smaller too >  
having a rest life time ... we hope almost 10 billion years  
having less UV radiation ... our year is much shorter ...

but as we will be on the border of the tropics and subtropics  
the plants there still having enough time to mature

and because there are always different kinds growing ....  
some thriving in the winter time .... some in spring ... summer or autumn .....

we will be having no problems !

we explore a place on a river  
the location being in a desert >

but massively fed from a remote mountain range  
where on both sides everything grows in abundance !

on the steep hills on one side ....  
we build an underground settlement in the light tuff  
where already natural caves exist by erosion  
we are digging further inconspicuously  
from these

for our underground settlement .....

where every morning the sun is shining in ...  
to wake up every one !

then we are working in the work shops until lunch  
afterward .... working outdoors ... getting animals and fish  
until dinner ...

as well > we are having under the protection  
of the trees along the river

the laundry ... baths ... and all big workshops set up  
and the big kitchen ... because there to every thing >  
easier to transport to !

and there ... we as well are eating all together ....  
afterwards only contemplation and discussions with the family ....

the first children of this new world are growing up  
and some appropriate .... after their training  
will then colonize other worlds !

we are using the thermo nuclear generators of the robot ships  
to having energy .... until we build bio gas plants  
where all the bio waste will get in there ....

for cooking and preparing hot water!  
for our gas power plant ...

afterward shall the mud again be supplied back to nature  
as a fertilizer!

we do not want to use hydro power for now ....

until we are sure > that it will not expose our existence

so far > no report from the telescope on our spaceship  
meaning no imperial ships or probes ....

we find crude fibers to weaving ...  
for fabrics and making clothes !

we build an outrigger sailboat to crossing the river ...  
and trips to the nearby coast ... where grass seeds are growing  
and everything other we can use !

to getting all we need .... for the growing population ....

> the end of empire <

we learn from the robot ships ... left at the exile planet >  
that the emperor and his two henchmen ... are death >

and many years later> that by losing the emperors ship >  
the embarrassing dis empowerment on our part ...  
even the empire itself sinking into chaos >  
over all those riots and sabotage >

as the empire now headless > without true knowledge ...  
and character >

every one trying just to savor rulers paradise !

resources squandering > contaminating the environment>  
instigating wars > destroying all >

only for the preservation of their power ...

until only a few > in miserable existence .... remain !  
from this empire will come no danger to us ...

but we know that not ... until much later!

> the first generation <

the children thrive in this heavenly environment  
we do not have the slightest problem !

we can take on any problem immediately and directly address  
to find a general realization >

the education of the spaceman going ahead as well ...  
only no one really ... wants to get away from here >  
therefore we decide > to first develop this world more >  
before some of us leave it ...  
to populate some other planet !

> the commander going his way <

he has developed a way  
for immaterial remote sensing > other worlds  
where higher animals have already developed >  
to serve for the incarnation of our religion .....

he predicts > that he will leave behind his body now for ever  
and will go to another galaxy with out it > only his spirit  
because the distance for manned flight > is much to large !

he will help the native population there in their own system  
developing towards > according to our religion .....

saving them from going into barbaric competitions  
through incarnating him self into the native population !

he informs some of us > of a means to call him  
should we need him ..... or he him self ... us >  
but he can only with his spirit coming back to us >

his body we should bury after his death .....

..... the message .....

on the inter galactic frequency we receive one day  
a wireless message > from a radio amateur ...  
reporting of the end of the empire !

we are considering what to do ?  
we could fly to another position >

to not directly betray us ...

and reply from there ...  
but what could help this ?  
such a sick population as this there ....  
no man can help with words !

there is not even a possibility  
our intention ... our lives to describe there !  
they would not believe us even >

that there are homo sapiens in this universe!

and why would anyone want to limit itself  
in its power ruling ... for to good of the future ?

if these offenders there  
only just do not want to do this !

we could fly there >  
and what could we do there ?

we could start a war ....  
with these now stake holders >  
could free them > of their stupidity !

but who would want this ?  
we want certainly no war >  
they want ....

only their irresponsible life !  
this now crystal clear ....

so who then wanted to start a war ?  
if not any danger .....

no chance of having any success ???

there is not even a real law and order there >  
not any real religion for homo sapiens !

no conscience > no haze of something other ...  
only endless power play ...

and when we would free those slaves ....  
and selecting a 1000 from the general public  
and then flying them here

we would have 1000 potential tyrants here >  
problems for our future !

there is a treatment for those >  
but since they would have to want to first being healthy >  
and which a disease wants to get ... well ?

we thought that it was just >>> the emperor !  
but now we know > that it is also each and every one  
tacking part in this >

because ... we could have taken part in this further >  
in this eternal game of the rulers paradise ...

where only the position of power decide >  
how much does he savor !

how many resources squandered ....  
how much the environment contaminated  
how many people forever tortured to death!

of course ... we will not reply >  
as we never send out radio waves !  
which can leave our world ...

we shudder only ... if we think of all of these !

it is not just about our security >  
it is about the future of this whole universe ....

## 100 years after ....

we have many settlements on our world  
we visit with our vector fin outrigger sailboats  
and deliver key parts ....

we build solar power freighters for inland navigation  
and areas with little wind ....

we have at a waterfall ... far above our river  
a hydro electric power plant ... installed underground >  
and on the cliffs there >

a roof with vegetation on top camouflaging a factory  
for our robot ships and space ship production ...

for ground transport > we build desert rovers >  
with solar powered electric drive ...

of course bicycles ....  
with direct front wheel hub drive !

we stay young through proper eating  
and as well exercise every day in the sunshine ...  
of course because of our satisfaction!  
and because we know ....

to be doing the right thing ....

we use> the thermo nuclear generators >  
from our robot ships etc > after exchange >  
for a long time coming !

for example in the settlement area  
where the weight factor / current output are of no concern

then after centuries using them there > the remains >  
are smashed further by artificial neutron bombardment >  
till these residual isotopes to becoming lead >>>  
nontoxic

over the whole period of time ... the waste heat  
continue to be used or the electricity produced

of course we will mine the uranium > for this to begin with >  
safe > meaning underground > and with mine robots ....

so there will not only be no danger> created for the environment  
but de facto > the radiation dose from this natural source  
even be reduced in the long term

the whole production process of this thermo generators  
and their reuse conversion >

will of course be done with robot systems  
and monitored by us via video continuously >

our pcs have ... inclusive monitor >  
a power consumption of < 1 watt equivalent  
because our programs are so optimized >  
that they are only some mbs

and consequently only need a few mhz !

there is only one kind for any purpose  
so there are spare parts and renovation for  
millions of years guaranteed

our lighting fixtures have led > and by over sizing them >  
therefore maximum efficiency > use only a few milli watts >  
under difficult working conditions ... about one watt ....  
and they are functioning some millions of hours

of course we apply sun radiation via mirror deflection  
in our workshops > wherever possible

of course we work normally only in the day time  
and our lighting is for guidance mostly  
in our living places at night ...

1000 year after ....

we scan further along our space environment  
crumble all meteors > which are dangerous to us  
so they fall as star dust only ....

we visit for the first time our world of origin !  
and film the destruction caused by endless wars  
and the exploitation of resources ....

but never make contact with the few survivors  
there because of lack of metals > are living ...>  
dying like in the stone age !

we as well are also making no contact  
with any vermin and predatory animals .....

who simply have no use for our way of life  
are pure creature of instinct ...

slaves to their criminal environment !  
simply atrocious ...

compared with us > where you can not even see >  
that there are people living > because we save each screw >  
every piece of metal .... and reuse every thing !

never make anything out of order  
or build it just for a limited time  
but for an eternity .....

although we seem to have no enemies anywhere  
but just for the esthetics > we camouflage all technology  
laying high voltage dc lines in the river

all the others ...  
can be camouflaged in an emergency!

a million years after ....

our original world ... does not ... have any more people  
on it ... because of the contamination everywhere ...  
the lack of resources and foresight

and because of this hopeless stupidity  
they are gone extinct ... bored to their own death

we have now settled several other worlds in our galaxy  
and through immaterial mind transfer > some other galaxies  
for our life as homo sapiens

there are no wars > no contamination >  
no hunger in our civilization any where  
because all ... are part of every thing ...  
all have the possibility

within the line of the universe  
to realize all we want ....

we show our videos ... of our former world  
in social .... political ... and religious lessons !

and no one can believe it >  
that there is such a mentally handicapped population possible !

we exchange ideas via mental visits with the other galaxies ....  
as well our former commander

being the beginning of the council galactic central  
as well the beginning of the galactic nation existing already !  
we continuously contact all via quantum communicators ...

the galactic religion ... the essence of our life > perfected  
seeing any risk for our intelligent life ... long ahead ....  
having an answer for everything !

everyone can be helping to perfect ...  
we all want to live in a paradise for all ...

where there are no victims > no perpetrators >  
no shame > no conceit .... all true and real ....

paradise every where !

one billion years later ....

we are represented in many galaxies >  
by mental transfer .....

through the incarnation in advanced animal bodies !

and over all this time to have our idea  
endlessly proven ... the homo sapiens race !

only there was ... just mean idiot selection  
created by such a stupid idea > as this world here .....

where one idiot with the other competing >  
to all these idiots delight ... in their insanity >  
the great stupidity .....

creating meaningless jobs !  
see house hold delivery of toxins !  
people being driven to freak out!  
to preventing any solutions !

see this planet satan here .....

the further development of the galactic religion

we having been thinking all these years about ...  
how we could protect our way of life against any destruction ...  
so .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive >  
all commandments >

all fundamental rights from!

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without conceit !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >

being a responsible citizen ...

> galactic central <

we are creating an information institute  
where all knowledge is collected > organized and analysed

> galactic nation <

is there for all homo sapiens ....  
in all intelligent nations of this universe

> council galactic central <

after many worlds in other galaxies having been inhabited by us  
we develop an institution >

where always some of us in their galactic neighborhood  
are chosen to visit by immaterial exchange and keeping  
the connection to all of us !

receiving information for all proposals and provide expert opinions  
for the improvement of all .... on going ... but never telling any thing  
or being told .... only information to being used if accepted by all ...

galactic foundation

*we are the guardians of creation*

the homo sapiens ...

being the basis of our civilization  
for our success in eternity

with his never ending wisdom > his total responsibility  
where no one ... no idea ... no solution will be shunned >  
no resource being wasted > no environment being spoiled >  
no security measure left out

where there is no hierarchy >  
because every one is the most important being !  
at our never ending paradise on any world  
in this universe

we at the galactic foundation > are searching constantly  
finding any and all danger to our society  
coming from degeneration and pest

keeping every homo sapiens informed >

what a difference they are making !

there while any and all danger to our universe  
will be eliminated through >

our galactic pest control program ...

the universe ... can not be an organized crime >  
with its technology > its predatory instinct  
on every world > every galaxy >

yes ... in the whole universe

so ... may not hold people from a responsible way of life  
since this is without responsibility  
since those organized criminals

understanding only their animal instinkt ...

the law of the universe >

each one citizen can only use his world  
for a purpose of the universe > for creation !  
and not for the destruction of their worlds  
and certainly not for the destruction  
of all responsible life ...

every little child knowing this in our society !  
and everyone can understand it >>>

because they are having a comprehension ...

fellow humans ... should therefore their fellow human >

to be an inspiration and not an inspiration for this >

end to your world > but to be keeping it as long as possible

> meanwhile > all people are so healthy

and always living healthier!

always freed from any danger  
doing less and less for their material needs  
not this one day throwing away production  
not these hamster wheels >

with those migratory locusts economies  
the end of your world and the end of all intelligent life  
already achieved

a technology may only serve the people  
not for his enslavement > not to being terrified to his end  
not as a drug > because he's not able to stand this reality  
can not bear at all > can not stand

not as a conceit > he would be a success >  
not as a distraction > from reality

but we need homo sapiens > no idiots selection  
for a secure future > for a future at all

so we need the education to a homo sapiens  
not to a suicide assassin > these all are .....

because there is no fundamental difference

between any Islamic state > and his religion  
or such a satanic state > who puts his delusion through

no difference between such a terrorist president  
or such a freak out > who seeing no other choice  
as just to be shooting around > just like all of them  
terror states always are killing all resistance !

just to not grasp > that this whole world being the problem >  
and no one has a solution!

nobody wanting a solution ...

the individual ...

can not be let to enjoying his idiotic egoism  
at the expense of the environment and its fellow human beings

nor can he be enslaved > to a mass of insane >  
to let their masses enjoy idiotic egoism  
to destroying their world and destroying the people  
to this horrible reality today

the only possibility for a sustainable world  
and a society worthy of its people  
to an endlessly functioning environment  
an endlessly functioning society

be ... that all first  
to recognize the need of a valid order!  
and implement this > that all >  
endless with one another in an open dialogue  
every day > always discussing the reality anew  
where everyone has a voice > not just the mass >  
meaning a majority of insane  
as now!

and consequently use this public truth  
as a basis for your all decisions made  
to realize a real righteous state  
to fulfill all valid laws  
to living a valid religion

homo sapiens?

only harm can come from them!  
to the climate > the resources >  
the seas > the land and the future !

of course to every homo sapiens > who knows  
that all this harm to his world will end it ...

## the meaning of a human life >

is to work out a decent way of life  
realize it > live it > guarantee it for all !

because only then .... is he a human being !

and therefore there is no meaning here on this world !  
as there is no humane order

because humans only want to live decently  
can be > must be ....!

otherwise they will be dissatisfied with themselves >  
until they can live as humans !

so to achieve this >

the meaning in life of each person ....  
is to make just this happen !

until then ... they feel like losers >  
indeed they are .... in reality!

only by their conceit procurement >  
this is represented as a success >

## eves insane aspiration of the true love ....

thus ... the person she will select > being as in any animal tribe >  
to spoil her immeasurably .... this existing for millions of years  
and until 100 years ago ... this was just inhumane !

but today .... this being the big animal love ...  
straight to be the problem ... because eve still >  
will marry the great pamperers ... materially and or psychologically >

a homo sapiens having not the slightest chance !  
only these clever critters .... trained by her ....

eve ... was and be never so generally suppressed !

but in a stone age society > roughly equivalent with adam ....

but in this western version > where eve can sit around  
and wait until her requirements of this insane love is full filled >

guarded by a so inhumanity as this insane western society >  
where useless work being created and trained animals > state licensed >

she be the absolute ruler > the tyrant over life and death !  
since she needs no man > biologically speaking .... emotionally  
but man be entirely dependent on eve ....

else nothing will come of him > even with a pope >  
he adores ... yes > must worship mother mary !!!  
otherwise he would never becoming a Pope ....

of course there are exceptions >  
of any outbursts over all this injustice !  
so if a man .... to lock her in the cellar

or he makes his exploitation >  
to have access to a biological necessity !  
he never could work out under humane conditions ...

so eve be .... with her animal demands >  
and no responsibility for the future or humans  
be the cause of this worlds dying .....

and as long as this insanity of the suppression of eve >  
being perpetuated in a single nation ... for selfish motives >

for men .... the world to be put to their death >>>

as long as there will be no rescue for this world  
consequently ... we need of course eves great friend >

the trained predator >  
discarded from all areas of human society !  
because children growing up with predators >  
will be just idiotic offenders ....

they .... of course .... to make no future !

just homo sapiens > the now soooo oppressed ....  
being capable to work on a solution >  
to realize this worlds rescue .....

but those in fact .... can not exist !

how is an eve supposed ?

to care for something other ....  
then savor heir satanic symbiosis fully !  
if no one will constrain her > such as a religion >

a tradition > a society!

while .... in this country they are so glorified by all >  
because they too .... are just a mentally retarded choice !  
from this it follows ... a mentally retarded world .....

how is some adam ?  
care for something other .... then to savor his satanic symbiosis  
if no one here to force him other wise >  
such as a religion > a tradition > a society !

while in this country he is so glorified by all >  
because they too are a mentally impaired choice !  
from this we follow a mentally retarded world .....

how is a free market economy to function ?  
if they may only build rummage > going of next week in the garbage  
while the climate being flipped > squandering the resources >  
environmentally damaging ...

otherwise they will not selling long any thing !

how is there supposed to be justice ???  
in such a satanic world ....

and how should this pest allow ... any homo sapiens ?  
if they can not be in a position to >

even knowing > what was right .... or wrong .....

### as soon as the individual ....

themselves are out of bounds of the general future design  
for example ... because they want to hide their criminal intentions ....  
meaning ... this idiot selfishness .... to further savor just this ....  
or any individual > the responsible > being excluded !

can this be no humanity >  
but a criminal association !

because only when all have part in it .....

and most importantly ... may be part of this >  
can this be righteous and consequently .... an honorable society !  
and the honor of every one must always be the first priority ....

thus we need all to be heard >  
observe all valid arguments >>>

and on this basis .... meaning this compiled ... public reality >  
make our decisions > our future design !

otherwise this is not a rule of law ....  
but a criminal association ... as usual ....  
this will not be functioning long

see as well the 11th commandment of the galactic religion !

and only having a decent ... honorable future design a true living together  
can prevent disasters > since they take into account all the reality >

where as any criminal association > meaning all of them now >  
end necessarily > because of all these disasters they are creating >  
because they have not ... the reality as their counselor !  
but their fata morgana .... where no water awaiting  
though their equally insane >  
delusion procurement !

## homo sapiens ?

it is not ... that those masses are insane >  
so actually the opposite of rational !

but all of them ? .... competingly criminal ....  
which should be condemned by every law authority !

since they are all ? .... a general danger to this world > since inhumane !  
condemning each other .... to state forced labor >

forcing each other .... to drug selling > toxins > narcotics >  
and buying those ! .... in absence of any thing else to do >

entertainment >>> artificial > visual and hot sounds !  
for the distraction of this gruesome reality .....

traveling to other mass delusional centers !  
or the really big delusional freedom >

the patient nature .... and their " loving " animals !  
the certified freedom from a humanity .....

life should be about human dignity !

about an intelligent life ...

because only if every one is being treated as an intelligent human  
can there be a human civilization long enough to even blink your eye

so ... life should not be a game at ever higher levels  
should not be about > making out of pawns > big players !

that is simply absurd ...

because the planetary resources will not be there long enough  
for even a million years !

nor the very environment !  
nor an intelligent population ...

because players will not be responsible citizens !  
because their endeavor having just not this very important >  
basic ingredient in there !

so .... we need no highly educated players !

we need responsible entities ... and their capabilities are then used >  
for the security ... the human dignity of all .... for a billion years !

on this planet > and for eternity .... on other worlds ... in other universa

so ... all power emanating from the government should be about >  
to guarding human dignity ....

or every thing will be over in a 100 years !  
its clear to see .... for any homo sapiens ...

## epilog

this population must becoming sane or disposed off !  
there is no alternative for the universe ...

so free and secret majority voting  
must be abolished

and publicly argued on an internet forum  
for solutions where everyone can participate >  
where everyone to put forward a better argument >  
to one for all binding solution present > no mass delusion!

because the majority is always wrong >  
and only a few right and we need a solution >  
we need an argumentocracy!

can some one suggest a better argument ?  
for a responsible life ...

and only a responsible life

can save this world > no mass delusion !  
is this clear to all ?

because democracy was already wrong  
according to some of the ancient greeks !

so it must be made public > that women are not suppressed  
but the cause of all problems > meaning the problem !

because she only dreams of the destruction of all higher life

so we need the education to being homo sapiens !  
so a galactic university > showing the solutions

so the most important mission an planet dirt  
being the end of all environment  
and all sapiens

this is uniting all  
there while offering the propaganda  
the intense vanity necessary  
to having all behind  
this evil doing

all political parties  
all spiritual entities  
all social endeavours

offering nothing but fata morganas  
striving to fulfilling satans wish

to mitigate his jealousy  
about the success of creation

and the wish  
of every satanic community  
to fighting wars against  
any thing less evil

and of all them billions  
of such competing haters of creation  
of all those united problems

how could there ever

becoming a humanity ?

and without a sapient population  
how could there ever be a future ?

but just the destruction  
of one world after the next ...

so thinking beyond ... when ever possible  
will bring more then pure survival  
will bring a future  
a paradise

so now we know ...  
why in this pure survival society  
in this cannibal economy  
there is nothing  
but survival

for this very short time  
of maybe some years to come  
but not the xxx millions  
of years possible

since nobody  
is having more to want  
then pure survival

on planet dirt

where every one is committing suicide  
this billion terror attack program

since there is nothing else to do !  
so ... we do need a whole new program  
a whole new way of doing things

how would we ever make  
this planetary environment

" great again " ?

how would we ever create  
a humanity ?

## **confronting cosmic reality**

is a prerequisite of becoming sapient  
of having a future  
a humanity

since as soon as any one  
is just looking at his own stupidity  
some thing not good for humanity

any one is telling about a fata morgana  
because his wanting to be accepted  
by this mass of fata morganas

he is creating the sure demise of all  
since up front there being no future  
but sure death

so there being no freedom of religion !

just as no state can be free  
to not guaranteeing human rights

so ...

every citizen having to believe in  
this cosmic reality being his religion  
included in his very life

cosmic.community(a)cosmic.community

the cosmic institute

the utopian institute

a utopian land

the argumentocracy.

galactic university.

sapiens foundation

the science for a future

the trauma report

publication

galactic central information

**only humans**

need human rights  
need humans and a humanity

to need  
to guaranteeing a right state  
so making the right decisions

since they use reality as their basis  
for everything they are doing

meanwhile all this pest  
on the run from this reality  
and that being why

they only have opinions

and there fore their opinions  
based on the power of majorities  
since they can not work out reality  
otherwise they would be seeing  
their limitations

so the opposite of their vanity

recognizeing false imagination  
being their whole existence  
make everyone a victim  
since the beginning

## **of all this uncivilization**

there fore they only their swarm  
knowing their pack interests

there while the human doing  
everything accordingly  
to cosmic reality

so the fulfillment of all other humans  
and the fulfillment of cosmic humanity  
and realize the vision of creation

there fore we homo sapiens in principle  
having no wars...pandemics...poverty  
exclusion and censorship

and the only exclusion  
only physical aggression  
applying only for

## **any prevention of this fulfillment**

eg > the activation  
of galactic pest control  
could exist

mean while all this pest  
against all this disturbance  
of their false imagination

all of these with a higher purpose  
eg all these attempts at human development

so human beings recognize a lower animal  
on his insistence on his opinions  
no argument of course  
no human rights  
no sense

since everything is just non sense  
this false imagination procurement orgy  
this rush to always doing something

meanwhile any human  
already haveing everything

he does not need  
flying to no where

no

" driving to no where fun "

no surgery  
no pharmaceutical drugs  
so all this damageing

" fun "
